

Contours
Timber Lining Boards

Elevate your Space with Contours

Contours timber lining boards add natural warmth, texture and depth to any space, offering a refined and versatile design solution for walls, ceilings and cabinetry. Designed to elevate interiors with ease, Contours brings architectural detail to life in both residential and commercial projects.

Product features:

- Stylish, sculpted profiles to suit modern and classic interiors
- Made from sustainably sourced timber
- Fast and easy installation
- Ready to finish with clear, stained or painted coatings
- Perfect for feature walls, ceilings, cabinetry and more
- Suitable for use in wet areas, including bathrooms, laundries, and kitchens*

*Installation in wet areas must comply with specified requirements according to AS 3740:2021 and NCC Vol 1 F2P2 or Vol 2 S26C5.

Riverine in Engineered American Oak

Durable *Timber*

Easycraft Contours are made from durable, solid timber, and are available in a wide range of timber species allowing you to select the perfect timber which best suits your space.

Engineered American Oak Veneer

A stunning North American hardwood, known for its hardwearing and versatile properties, this species' warm tone provides an inviting neutral backdrop.

Pinnacle profile shown

Tasmanian Oak

Tasmanian Oak is a beautiful Australian hardwood and forms the core of the Contours range. Select Grade offers a clean, uniform finish with minimal feature.

Strata profile shown

Clear Pine

A light softwood that is typically a cream to light-straw in colour, ideal for staining, waxing and colour-washing. This knot-free product is significantly easier to work with compared to knotty pine.

Cirque profile shown

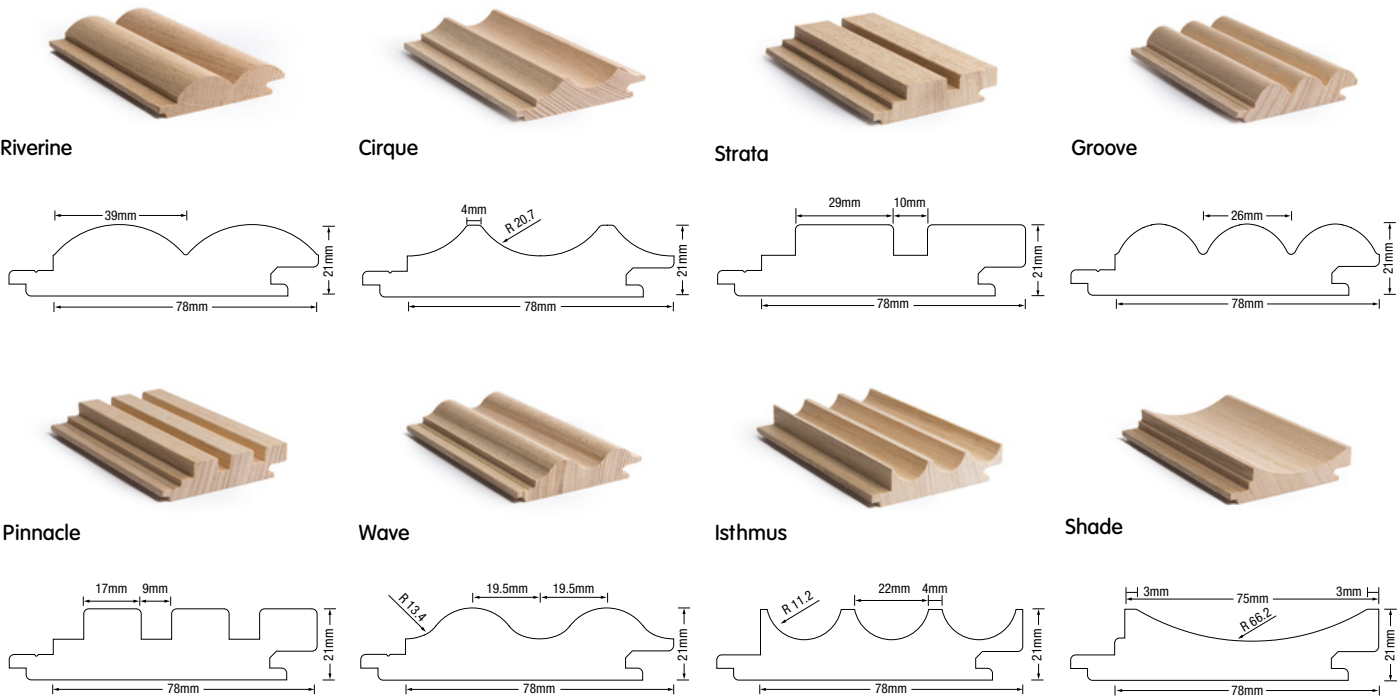

Primed FJ Pine

Ready to paint, this product is pre-coated with two coats of a specially developed water-based primer in a matte white finish. It is manufactured from finger-jointed Clear Pine which provides enhanced strength and stability.
