PROUDLY
Australian

polytec is an Australian marketer, innovator, and reliable distributor of decorative surface products that deliver uncompromising quality, visual appeal, tactile finishes, durability, and excellent value.

Through its manufacturing division, **polytec** leads the way in its commitment to Australian manufacturing and in the development of decorative panels and components for joinery applications in kitchens, living areas, bathrooms, laundries, wardrobes, home offices, custom built furniture and commercial spaces.

COMMITTED TO quality

At the forefront of technology, **polytec** products are manufactured with the most technologically advanced and computer integrated manufacturing systems.

A committed, skilled and passionate workforce delivers excellence in craftsmanship and customer service on all platforms in producing materials that meld attention to detail, beautiful finishes and durability.

We take pride in offering products that are cutting-edge in quality, aesthetics and performance, relevant to the full-spectrum of project types and bringing them to market at an accessible price point.

environmentally ALIGNED

At **polytec**, sustainability is ingrained in the core of our business operations, products, and work practices. Our continual dedication to improving and appropriately managing the environmental impact of our products involves our commitment to steadfastly reducing our carbon footprint, minimising waste, optimising energy efficiency and integrating ethically sourced materials into our product ranges.

Our products are made using responsibly sourced timber certified to the leading environmental standards, including Green Tag Level A, Responsible Wood, and PEFC. We proudly manufacture our MDF and Particleboard using E0 or E1 low-emission substrates, helping to support healthier indoor environments in homes, schools, offices, and commercial spaces. As part of our commitment to the Circular Economy, we incorporate recycled wood fibre into our particleboard production - reducing waste and giving urban timber residues a second life.

Our integrated operations keep us close to the entire life cycle of our products - from tree planting and material recovery to manufacturing and distribution. This enables us to drive meaningful environmental improvements, reduce our carbon footprint, and design products that are better for people, the planet, and the future.

In our pursuit of responsible waste management, we implement various recycling programs encompassing aluminium, metals, used oils, and timber waste, which is repurposed into packaging, particleboard, and energy.

Our network of national facilities boasts over 46,000 solar panels, generating more than 15,000MWh of renewable energy. At the time of installation our Oberon facility was Australia's largest rooftop solar system, with 27,000 panels spread across 8 hectares of rooftop. Our Battery Energy Storage System (BESS) rollout begins with two batteries providing 2MW/4MWh charge capacity. They charge from our onsite solar panels and discharge at night to support our operations.

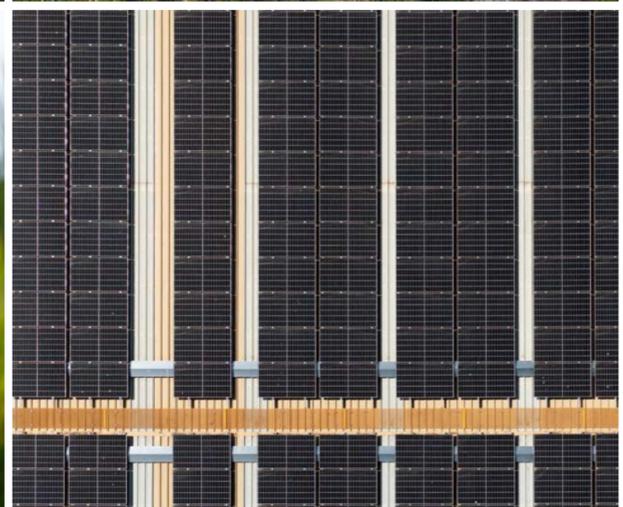

In our ongoing commitment to sustainability, **polytec** continues to refine and enhance our practices to contribute to the establishment of a circular economy, fostering a better future for all.

INSPIRING creative spaces

At **polytec**, we collaborate closely with the design and construction community to ensure our decorative surfaces not only meet the demands of complex project specifications but also consistently elevate the design outcome.

Shaped by a commitment to versatility and inspired design, **polytec's** expansive surface range brings creative freedom to any interior or joinery fitout.

From authentic woodgrain finishes with exceptional colour depth and clarity, to timeless neutrals and refined stone-inspired décors, the **polytec** palette enables bold, memorable design expression across both residential and commercial environments.

kitchen

THE HEART OF THE HOME

Often considered the soul of a home, the kitchen is a focal point of everyday life, which require materials that are practical, robust and a pleasure to be around.

polytec delivers on all fronts with a complete collection of decorative surface solutions that span every corner of kitchen design. From durable Benchtops & laminate to achieve curved surfaces, Decorative 16mm and Decorative 18mm board, choose from door profiles with Thermolaminated doors & panels, create features with Steccawood prefinished decorative battens, or select stone-look benchtops with Xenolith, and even Aluminium framed doors – **polytec** has every design vision and function need covered.

With a vast palette of complementary colours, luxurious finishes, and exclusive prints, each range is developed to work seamlessly together. This opens the door to endless possibilities – whether you're crafting a minimal, modern masterpiece or a warm, textural sanctuary – paving the way for highly original and bespoke kitchen designs.

With **polytec**, your kitchen becomes more than a place to cook, it becomes a curated experience – designed for life and built to last.

LAUNDRY & bathroom

Whether you are looking for an efficient family bathroom, a spacious spa retreat, or a well organised laundry, **polytec** offers a comprehensive range of decorative joinery solutions to bring functionality and style into every corner of your home.

polytec's curated range of complementary colours and tactile finishes offers endless design potential – from benchtop solutions for vanities to versatile doors and panels for custom storage. With **polytec**, these functional spaces are transformed as seamless extensions of the home's overall aesthetic.

The Benchtops & laminate range features an exceptional palette of over 150 solid colours, realistic stone-inspired prints, alongside woodgrains – combining durability with visual appeal. Available in a variety of thicknesses and edge profiles, these surfaces are designed to suit every layout and lifestyle.

polytec's Xenolith range is available in both 15mm and 18mm thicknesses, giving you design flexibility to achieve your desired aesthetic – whether it's a sleek, understated benchtop or a more substantial, luxurious profile. Complementing the benchtops, Xenolith also offers a 5mm splashback option, creating a cohesive and seamless finish throughout your space.

Drop Front benchtops & vanities, offered in both Xenolith and Compact laminate, offers a prefinished, waterproof solution. Drop Front benchtops & vanities deliver enhanced durability with customisable edge and sizing options, making them ideal for wet areas.

Whether continuing a unified colour palette throughout the home or making a bold design statement, **polytec**'s decorative solutions elevate bathrooms and laundries into beautifully considered spaces – without compromising on performance.

wardrobe & STORAGE

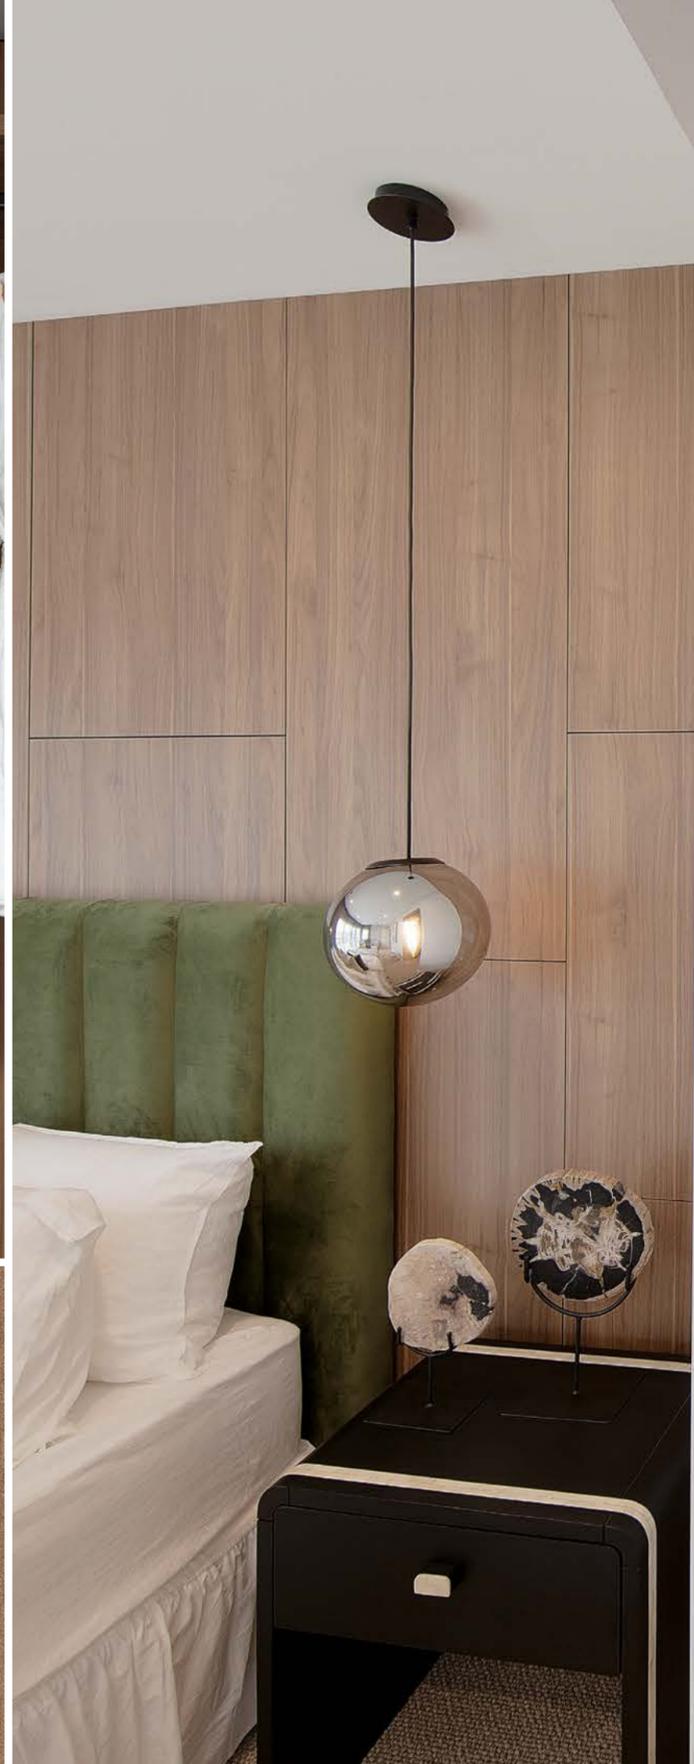

From walk-in wardrobes to built-in cabinetry and utility storage, **polytec** delivers tailored solutions that combine form and function. With a broad selection of decorative doors, panels, and drawer fronts, it's easy to create beautifully organised spaces that reflect your personal style.

Whether you're designing sleek, contemporary joinery or a more classic look, **polytec's** extensive palette of colours and finishes ensures every storage solution integrates seamlessly with your overall interior design.

polytec's 25mm Surano wardrobe & barn doors, used as sliding doors, add an element of luxe character, enhanced by the selection of either Woodmatt, Ravine, or Matt decorative finishes or the new glass inserts.

polytec's Horizon drawer fronts, a three-piece construction with a glass insert and a frameless top edge, create a unique and stylish design. Perfect for wardrobes and storage solutions as they provide a sense of openness to your space.

Durable, low-maintenance, and designed to integrate seamlessly across other living zones, **polytec's** wardrobe and storage offerings make organisation effortlessly stylish.

study & HOME OFFICE

As the lines between work and home continue to blur, the need for well-designed study and home office spaces has never been greater. **polytec** offers a wide range of decorative surface solutions that support productivity, comfort, and style – whether you're creating a compact study nook or a dedicated workspace.

With an extensive palette of products, colours, and finishes, **polytec** allows you to tailor every element – from desktops and shelving to storage cabinetry and wall linings. Durable, low-maintenance, and designed to suit any interior scheme, **polytec** help transform home offices into inspiring, functional environments.

Whether integrated within a living zone or set apart as a private retreat, study spaces designed using **polytec** are made to perform beautifully – day in, day out.

WORKPLACE & commercial

In commercial environments, first impressions matter. These spaces must capture attention, express brand identity, and deliver lasting performance. **polytec** delivers on all fronts, offering a comprehensive range of decorative surface solutions that meet the demands of high-traffic, high-performance spaces without compromising on style.

From aged care and health, hospitality and retail, to commercial workplaces and end of trip facilities, **polytec**'s extensive product range is designed to adapt to a wide variety of commercial applications.

With a broad selection of colours and finishes, including anti-bacterial, scratch and impact-resistant surfaces, **polytec** materials are designed to withstand daily wear while maintaining a beautiful aesthetic. A palette that spans rich woodgrains, luxurious stone prints, and on-trend solid colours, gives designers the freedom to craft immersive experiences tailored to each brand and setting.

polytec's materials allow for consistency across multiple applications and locations – helping businesses create spaces that feel considered, functional, and unforgettable.

Boston Oak

COLLECTION

polytec's Boston Oak Collection is a global creative first.

Offering a broad spectrum of 12 colours inspired by traditional methods of staining natural timber, using the original Boston Oak structure as its base, in our signature Woodmatt finish.

The collection ensures the ultimate mix-and-match aesthetic, versatility, and functionality. Available in:

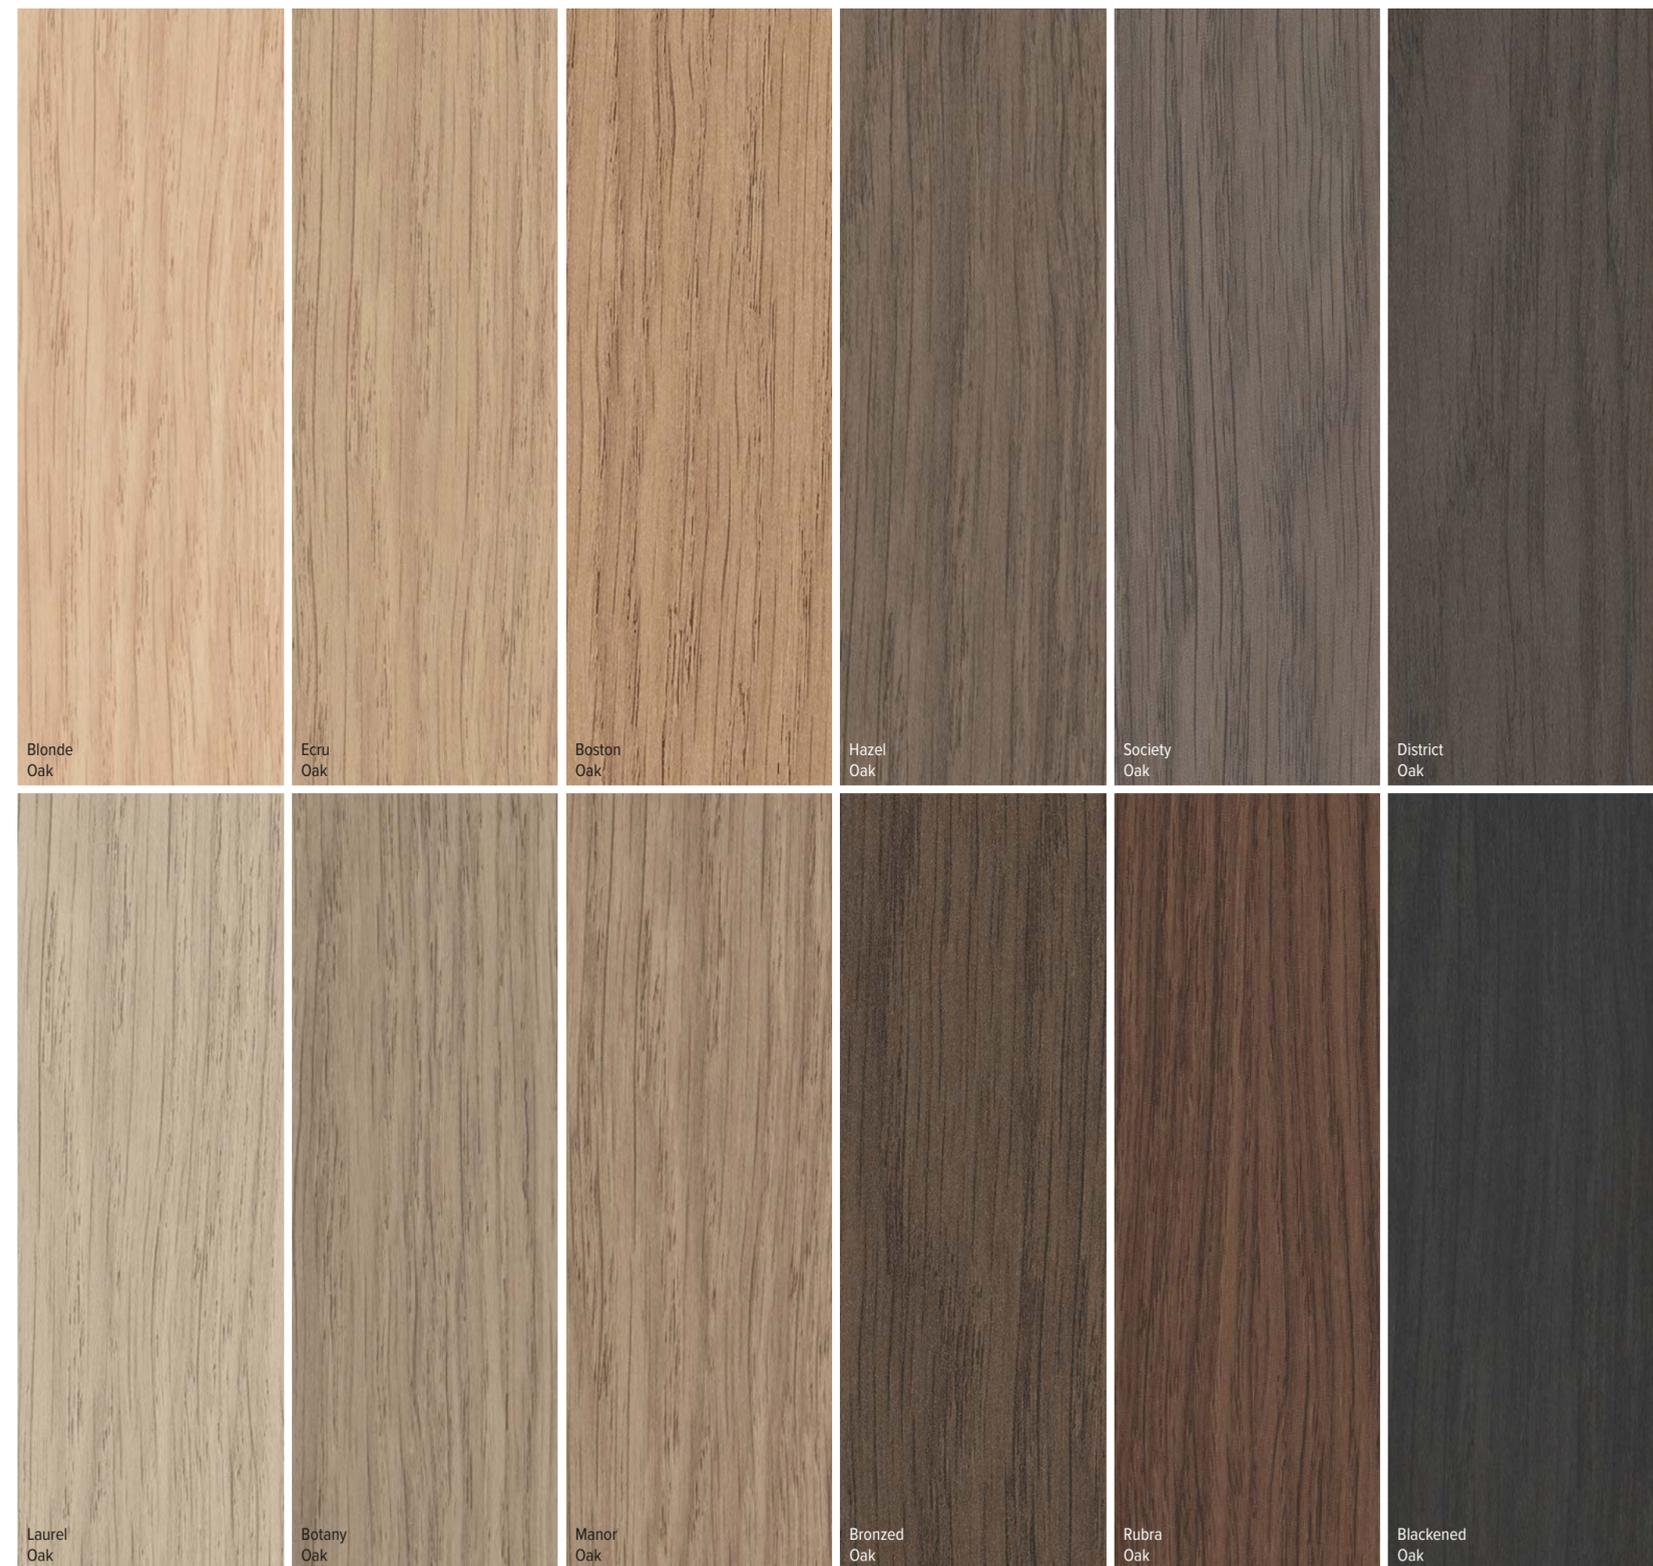

- Decorative 18mm doors & panels
- Thermolaminated doors & panels
- 18mm and 25mm Surano doors
- Horizon drawer fronts
- Benchtops & laminate
- 25mm shelving & panels
- Large format sheet sizes and thicknesses
- Steccawood prefinished decorative battens
- Architectural internal doors
- Compact laminate in select colours

Versatile across both residential and commercial projects, the Boston Oak Collection can be applied to benchtops, cabinetry with both flat and profiled door options, wall linings, curved joinery, custom-built furniture, battened features, partitioning systems, and more, providing unparalleled flexibility throughout all aspects of joinery. Australian designed, developed, and manufactured, the authentic woodgrain finish brings warmth and character to any interior, making it a timeless choice for all spaces.

Decorative

18mm DOORS & PANELS

Style the surfaces within your project using **polytec's** extensive Decorative 18mm range. Blend unique textures, tones, and finishes to achieve a contemporary look.

Mix warm colours with cool accents, or matt surfaces with a timbergrain to create visual interest. Choosing from the Decorative 18mm range enables you to achieve a truly leading-edge design. Tall cupboards featuring timbergrains or silky finishes that stretch from floor to ceiling provide the perfect backdrop for your choice of ultra glossy or super matt doors and drawers.

The Decorative 18mm range is a collection of **polytec's** leading and most innovative ranges – Woodmatt, Legato, Ravine, Ultramatt, Ultraglaze, Createc and Venette. Designed to be complementary, these ranges allow you to infuse your spaces with the latest colours and finishes.

polytec's Woodmatt finish is a subtle woodgrain embossing with an overall matt surface, designed to look and feel like a true veneer. Featuring 12 colours from the Boston Oak Collection, the range also includes options like Batten Oak and Rattan to create warmth, texture, or a striking feature within any interior.

polytec's Legato range features a super matt, non-reflective finish. This subtle, understated look is imbued with lighter, timber tones and delivers a fresh refined presence.

polytec's Ravine range showcases a raw embossed natural touch timber surface lightly coloured with warm and inviting shades.

polytec's Ultramatt and Ultraglaze doors & panels are an acrylic, premium surface appropriate for residential and commercial joinery. The fingerprint and scuff resistant properties of Ultramatt make it a suitable option for high-traffic zones, while Ultraglaze remains an innovative high gloss finish in the decorative surfaces industry.

polytec's Createc range allows your design to shine. Its ultra high gloss surface delivers sharp lines and a polished, sophisticated finish.

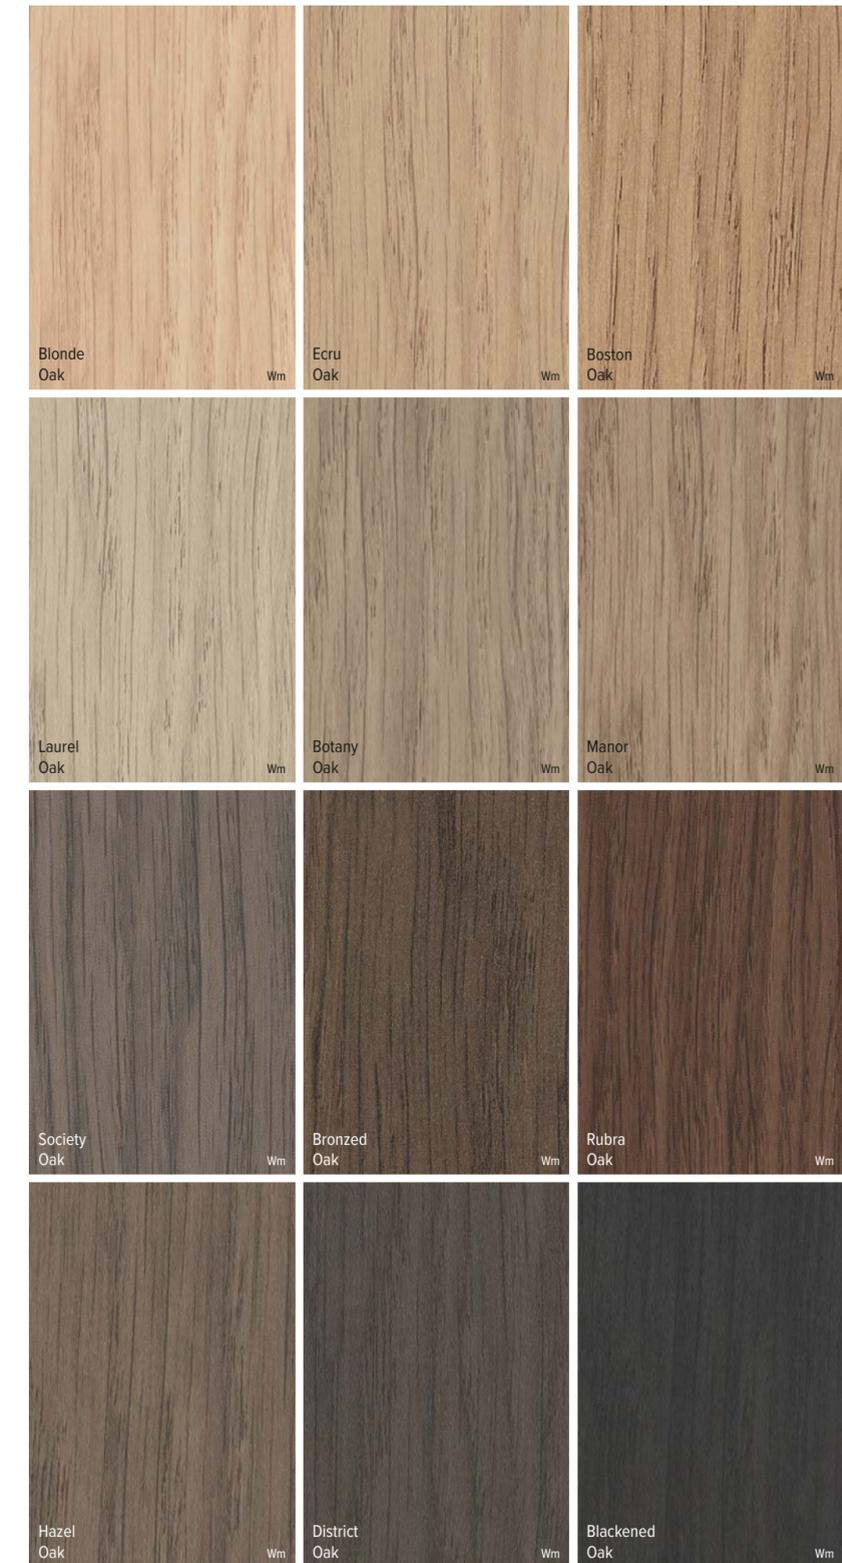

polytec's silky smooth finish of Venette creates an inviting and pleasant touch experience. The pure matt surface assures low light reflection with exceptional fingerprint resistant technology.

Blend your choices to capture the latest design trends and style your ideal space.

Decorative

16mm DOORS & PANELS

polytec's Decorative 16mm doors & panels are a go-to surface solution for both residential and commercial projects. This range brings style, texture, and durability to a wide variety of applications including cabinetry, wall linings, shelving, custom-built furniture, feature panels, and more.

Available in an extensive palette of colour and finish combinations – including Woodmatt, Smooth, Texture, Matt, and Sheen finishes – the Decorative 16mm range allow designers, cabinet makers, and homeowners to create cohesive, visually striking interiors.

Complementing **polytec's** broader product ranges, including our Benchtop & laminate collections, Decorative 16mm doors & panels support fully integrated design across any space. Choose from a variety of edging options including 1mm Square Edge, Bevel Edge, and the Aluminium Finger Pull door range for a clean, contemporary finish.

Durable, hygienic, and low maintenance, these surfaces are crafted for everyday use. Australian made and backed by a 7-year warranty, **polytec's** Decorative 16mm range is built to last.

Whether you're designing joinery in a modern office, wall panelling in a retail fitout, entertainment units, bathroom vanities or a kitchen in a family home, **polytec's** Decorative 16mm doors & panels bring quality, consistency, and design flexibility to every project.

Featured Finishes:

- Smooth – made to reflect a soft, painted finish with slight reflectance values, perfect for contemporary spaces.
- Woodmatt – a subtle woodgrain embossing with an overall matt surface to look and feel like a true veneer, setting a benchmark in Australian made door and panel manufacturing.
- Sheen – a mid-gloss finish for affordable elegance and visual depth.
- Matt and Texture – a range of tactile surfaces to suit any aesthetic.

With its broad colour options, durable qualities, and extensive range of finishes, **polytec's** Decorative 16mm doors & panels offer the ideal solution for elevating any interior joinery. Whether used in high-traffic commercial spaces or bespoke residential joinery, this versatile range delivers style and practicality. Create a cohesive design story across every room or project with the trusted quality of **polytec**.

Decorative

16mm & 18mm DOOR STYLES

polytec's Decorative doors and drawer fronts deliver timeless appeal with durable performance. Available in a range of 16mm and 18mm options, each style offers a unique aesthetic and practical design to suit your project needs.

Horizon Drawer Fronts

polytec's Horizon drawer fronts, a three-piece construction with a glass insert and a frameless top edge, creating a unique and stylish design. Perfect for wardrobes, bar units, pantry drawers, and more as they provide a sense of openness to your space.

Surano Doors

polytec's 18mm Surano doors bring a refined, timeless aesthetic to any space, delivering the beloved shaker style in a contemporary way. Using advanced joinery techniques, these doors are glued and dowelled in a multipiece construction for exceptional strength and stability - designed to withstand everyday knocks and bumps with ease.

Square Edge Door

A clean and contemporary favourite, the Square Edge door is a versatile choice that complements any interior style. Its sleek profile is perfect for achieving a modern, minimalist look.

Avellino Door

Avellino doors consist of two vertical side rails and a horizontal centre panel, bringing a contemporary spin on the traditional European-style door with contrasting timber-grain direction.

Bevel Edge Door

polytec's Bevel Edge profile provides a sleek, seamless looking door reflecting the current kitchen trends by giving a modern, minimalistic appearance without any handle hardware interruption. This will allow for the beauty of the selected finish to be the focus of the joinery.

Aluminium Finger Pull

For an integrated handle solution, the Aluminium Finger Pull door offers a seamless and streamlined finish. Its modern functionality eliminates the need for external handles, while maintaining a refined aesthetic.

No matter your design direction, **polytec's** Decorative door range offers a combination of colours and finishes with crafted profiles and durability to withstand busy environments.

Decorative 18mm door styles

Horizon drawer fronts

polytec's Horizon drawer fronts bring a new level of sophistication to your project with a range of colours and also Clear, Frosted or Grey glass inserts, providing a functional yet aesthetically pleasing drawer front.

Surano door

This shaker style door, using joinery, glued and dowelled in a multipiece construction will add an element of luxury to your home. Enhanced by the selection of either Woodmatt, Ravine, or Matt Melamine finishes or glass inserts, these five piece doors create a modern nostalgic feel in any space.

Pantry Door - Single Panel Pantry Door - Two Panel (Single Mid Rail) Pantry Door - Two Panel (Double Mid Rail) Pantry Door - Three Panel (Single Mid Rail) Door Door / Drawer (Half Mid Rail) Drawer Bank (Half Mid Rail) Drawer Bank (Half Mid Rail)

Thermolaminated DOORS & PANELS

polytec's beautifully crafted range of Thermolaminated doors & panels will elevate the look of your design. With a variety of styles to choose from, Thermolaminated doors & panels will add character to your home or office. From sleek, contemporary minimalistic designs to the more traditional look of country style doors, **polytec** can supply a style that will complement your space.

Using advanced technology, Thermolaminated doors & panels are made from moisture resistant E-Zero MDF, constructed with a durable and decorative surface on the face and edges. The result is a stylish, fully profiled door. The thermoformed surface makes it resistant to the usual knocks and bumps of a busy household, ensuring your kitchen will remain a showpiece for years to come.

Thermolaminated doors & panels are available in a wide range of colours, profiles, and surface finish options. The Thermolaminated range offers Woodmatt and solid neutral Smooth colours, enabling flexible design capabilities with extensive profile options.

Stylish, functional, and simple, Thermolaminated doors & panels are suitable for any internal joinery application including vanities, wardrobes, custom-built furniture, storage units, laundry cupboards, wall panelling, and more. Create a statement using **polytec**'s Thermolaminated doors & panels, allowing you to bring depth and texture to your interior spaces.

Using high grade materials and ultra-modern technology, **polytec** products are exceptional in design and durability. All **polytec** manufactured doors come with a 7-year limited warranty, giving you piece of mind.

polytec are the market leaders in custom-made cabinet doors. Our success results from over 35 years of manufacturing experience, and we are proudly Australian Made and Owned.

Style 1
Scan QR code or
visit www.polytec.com.au for more door profiles.

polytec is the market leader when it comes to innovative door products. With the largest range of profiles and finishes, you can select a style that will complement your project.

Available in Thermolaminated doors or Cut & Rout doors finished in double sided satin melamine ready to prepare for painting, there is a design that will suit your needs.

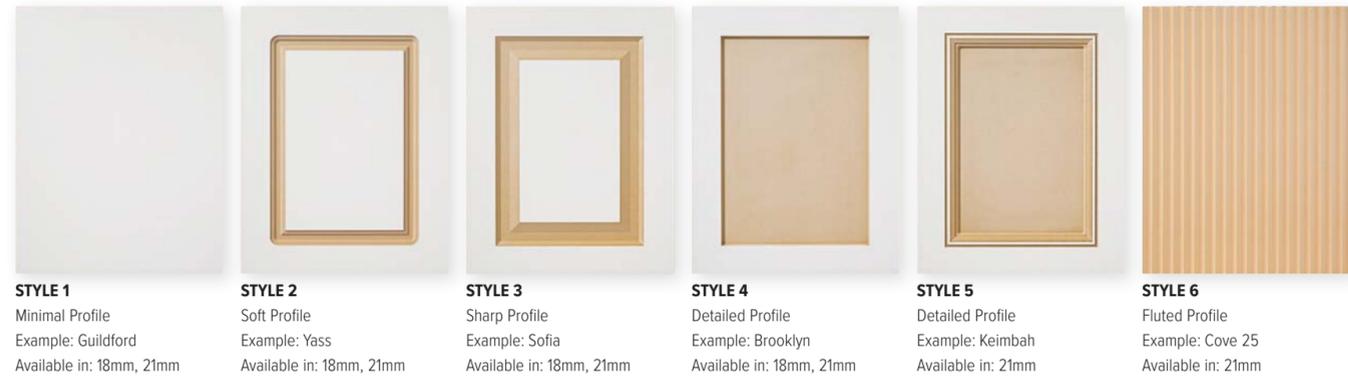

Double sided satin melamine is suitable for professionally prepared 2-pack polyurethane or similar coating systems. Water based paints do not tend to bond easily to melamine surfaces and as such, the use of acrylic or domestic oil based paint is not recommended. In all applications, the painting of melamine doors and panels should be referred to a reputable paint-trade professional.

To achieve the best 2-pack polyurethane finish, **polytec** recommends the use of an under coat on the painted surfaces prior to the final finishing coats being applied. **polytec** will not accept responsibility for the paint finish on the white melamine surface.

If **polytec** Cut & Rout doors are supplied in good order, **polytec** takes no responsibility for adverse effects caused by further processes, storage and handling.

Styles & Thicknesses

Profile doors and panels are manufactured using 18mm/21mm machine grade moisture resistant medium density E0 fibreboard.

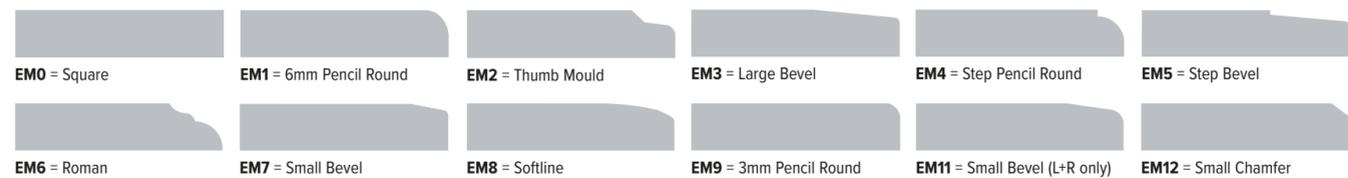

Recessed Handles

Your doors can ultimately be fitted with your choice of handles but if you are after that stylish, functional and simple look, **polytec** offer a selection of integrated finger grip designs. Refer to page 152 for Thermolaminated options or page 175 for Cut & Rout.

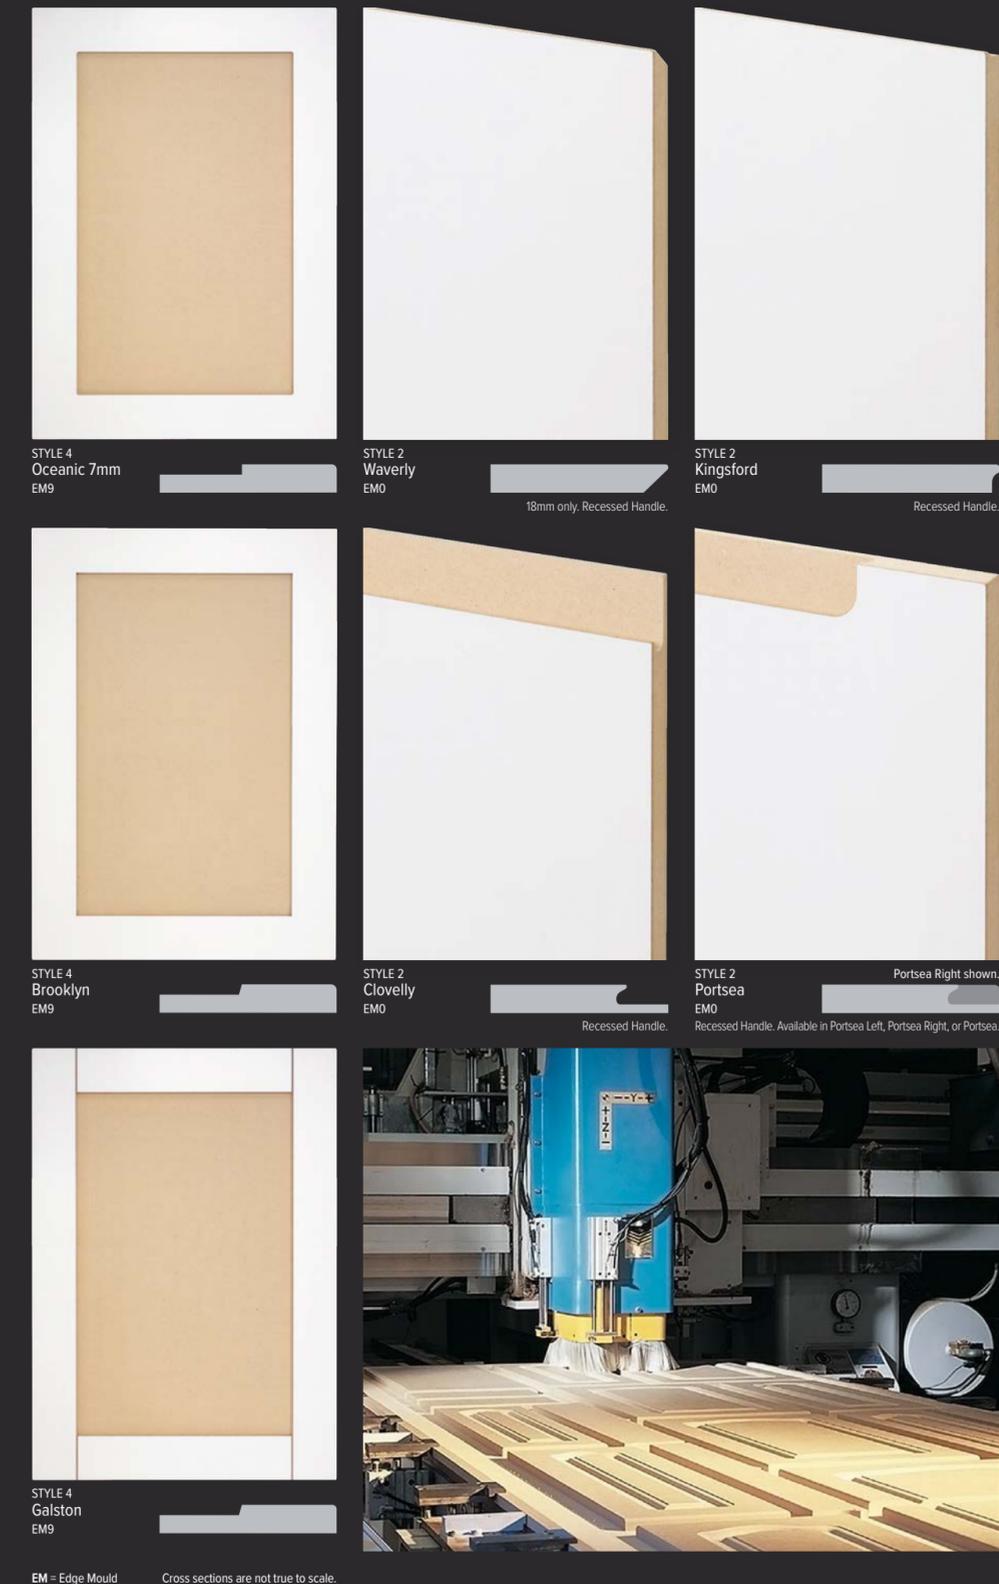

Edge Moulds

Cross sections are not true to scale.

THERMOLAMINATED Calcutta 10 profile drawers in Pallido Smooth.
THERMOLAMINATED Calcutta 35 profile wall panelling in Black Smooth.
 Vanity top in **XENOLITH** Solid White Smooth.

Recessed Rails

Minimalist and handle-free doors and drawers are the latest trends in kitchen design. To create a modern space with flowing horizontal lines, **polytec** offer a range of Recessed Rails to match our Thermolaminated doors & panels. **polytec** also offer a range of recessed handle door styles, refer to page 168 and 174.

Shelving & Capping

Integrate shelving units into your design with **polytec** Thermolaminated panels in matching colours and finishes. Shelving is a great way to restyle your space, allowing for the display of decorative items to evoke different moods and styles. Capping accessories help to achieve a traditional finish to upper cabinetry with elaborately detailed mouldings available in a variety of colours and finishes.

Drawers

polytec manufactured drawer banks are available in a range of styles to suit the profile of your doors. For a traditional look choose individual drawers to enhance the crafted look of each panel. For the more contemporary integrated look choose a drawer bank style that matches the adjoining doors.

Mouldings

Mouldings are the newest addition to the **polytec** range of accessories, offering two styles in all colours, excluding Gloss. Mouldings can be used in a skirting board application or as a decorative feature. Create a modern or traditional style interior with the Bevelled and Traditional profiles.

Bar Panels

polytec Thermolaminated Bar Panels are designed to suit a kitchen island bench or other exposed under bench joinery applications to match existing cabinetry styles. Bar Panels can have multiple profiles on one panel, typically manufactured with a larger bottom rail to replace kickboards. Create a coherent, linear look by installing profiled Bar Panels into your design.

Heat Deflectors

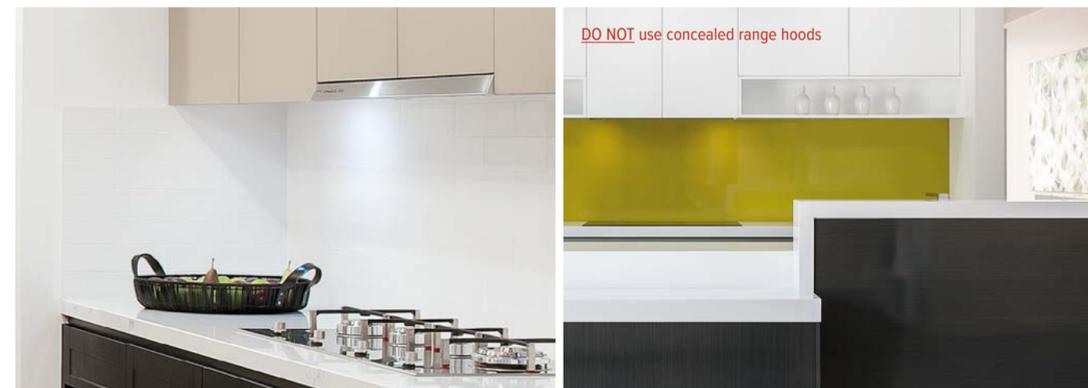

Ovens and dishwashers are often not designed to deflect heat and steam away from surrounding surfaces. **polytec** offer metal heat deflector strips for use where such appliances are alongside Thermolaminated doors & panels. The use and installation of heat deflectors, return panels and melamine panels beside ovens, dishwashers and heat sources is recommended and complies to the **polytec** warranty.

Range Hoods

When installing Thermolaminated doors above and around a range hood, ensure the range hood is installed to comply with the Australian Standards AS/NZS 4386.1 and our manufacturer recommendations. The use of concealed range hoods with Thermolaminated doors & panels will void the **polytec** warranty.

NOTE When installing Thermolaminated doors above and around a range hood, ensure the range hood is installed to comply with the Australian Standards AS/NZS 4386.1 and our manufacturer recommendations. The use of concealed range hoods with Thermolaminated doors & panels will void the **polytec** warranty.

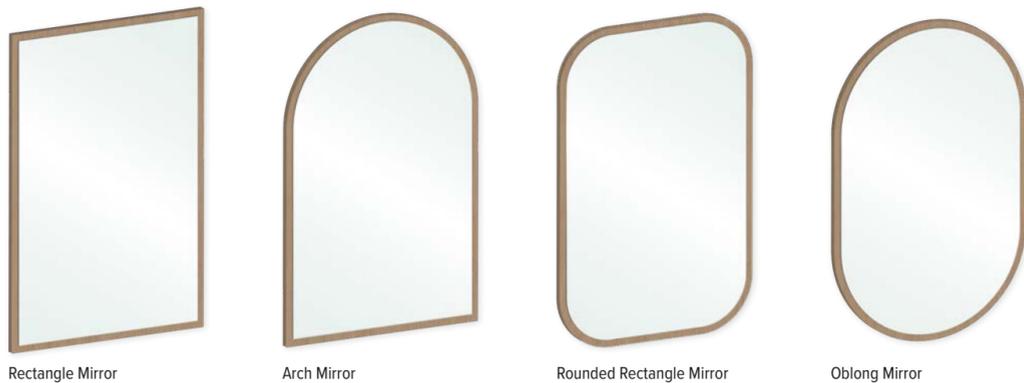

Mirror Panels

Bringing a modern aesthetic, **polytec**'s new range of Thermolaminated Mirror Panels are designed to add an element of luxury to your space. Available in four designs – Arch, Oblong, Rectangle, and Rounded Rectangle – all options offer a unique design to create a decorative feature in any home or office.

polytec's new Mirror Panels are offered in all current colours and finishes in the Thermolaminated range, except for Gloss. This wide range of choice gives you flexibility with your design style.

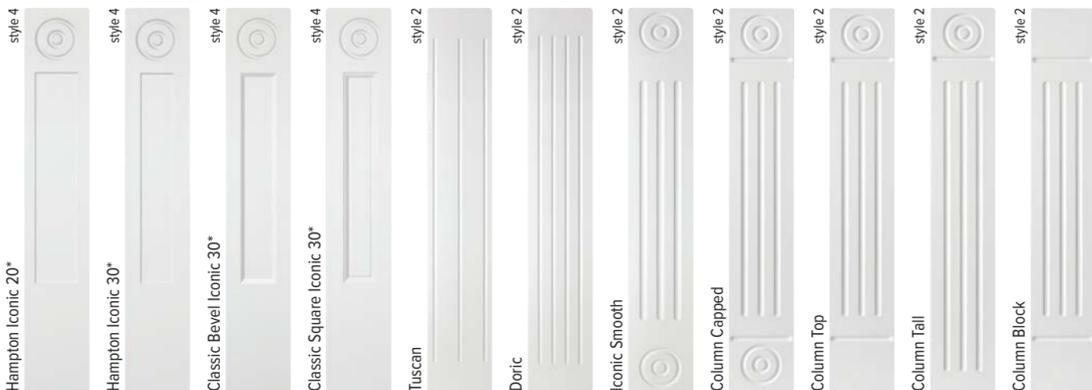

The 18mm thick Mirror Panels are 900mm x 580mm. Used for a variety of applications, **polytec**'s Thermolaminated Mirror Panels are manufactured and produced to complement various designs that will stand the test of time.

Decorative Flutes

polytec Decorative Flutes are available in eleven different styles, in select Thermolaminated colours and finishes.

Add a touch of old world elegance with these timeless traditional design features.

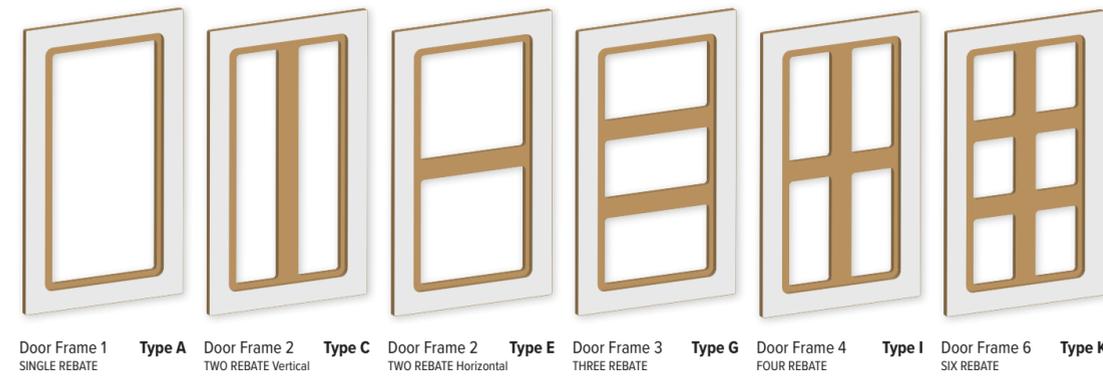

* Not available in Gloss

Drawings are for illustrative purpose only, and are not true to scale.

Door Frames

Designed to add interest, **polytec**'s Thermolaminated Door Frames are ideal for feature cabinetry. Perfect for showcasing contents or adding a refined detail to your space, offering a seamless blend of style and practicality.

Return Panels

Featuring a seamless square front edge in either 18mm, 21mm, 36mm or 42mm, Return Panels integrate effortlessly within your joinery, enhancing the overall aesthetic. The Return Panels can be coordinated to match or contrast your doors as they are available in all Thermolaminated colours and finishes.

Complete your cabinetry with Return Panels by finishing the exposed ends of cabinetry runs, create a neat transition between cabinet sections, or build a cohesive frame around appliances.

Drawings are for illustrative purpose only, and are not true to scale.

Aluminium

FRAMED & ALFRESCO DOORS

polytec's Aluminium framed doors and Alfresco range offer a contemporary design element for your space. To create a feature within your home, you can apply **polytec's** Aluminium framed doors. With a variety of different frame profiles available, along with colours, finishes, and range of frame inserts, the design possibilities are endless.

A choice of various frame profiles in Brushed Black Anodised, Brushed Stainless, and Satin Aluminium finishes, allows coordination with your appliances within your project. The glass inserts provide both translucent or reflective finishes from an array of clear, etched, fluted, mirrored glass inserts, and more, each offering a different aesthetic depending on your design style.

polytec's Alfresco range is designed to transform an outdoor cooking and casual dining space into a functional, practical, and legitimate additional room. Fulfilling the growing trend of having a fully equipped, covered outdoor kitchen. In essence, the same quality cabinetry and aesthetic from the neighbouring indoor kitchen can be seamlessly carried through to the outdoors – extending the liveability and usability of all spaces.

Alfresco doors are hardy and water-resistant. Choose from either sleek Brushed Grey or a Black Anodised Aluminium frame finish to coordinate with appliances, barbeques, or to create a modern black framed look. You can also choose from an array of 5mm Compact laminate inserts.

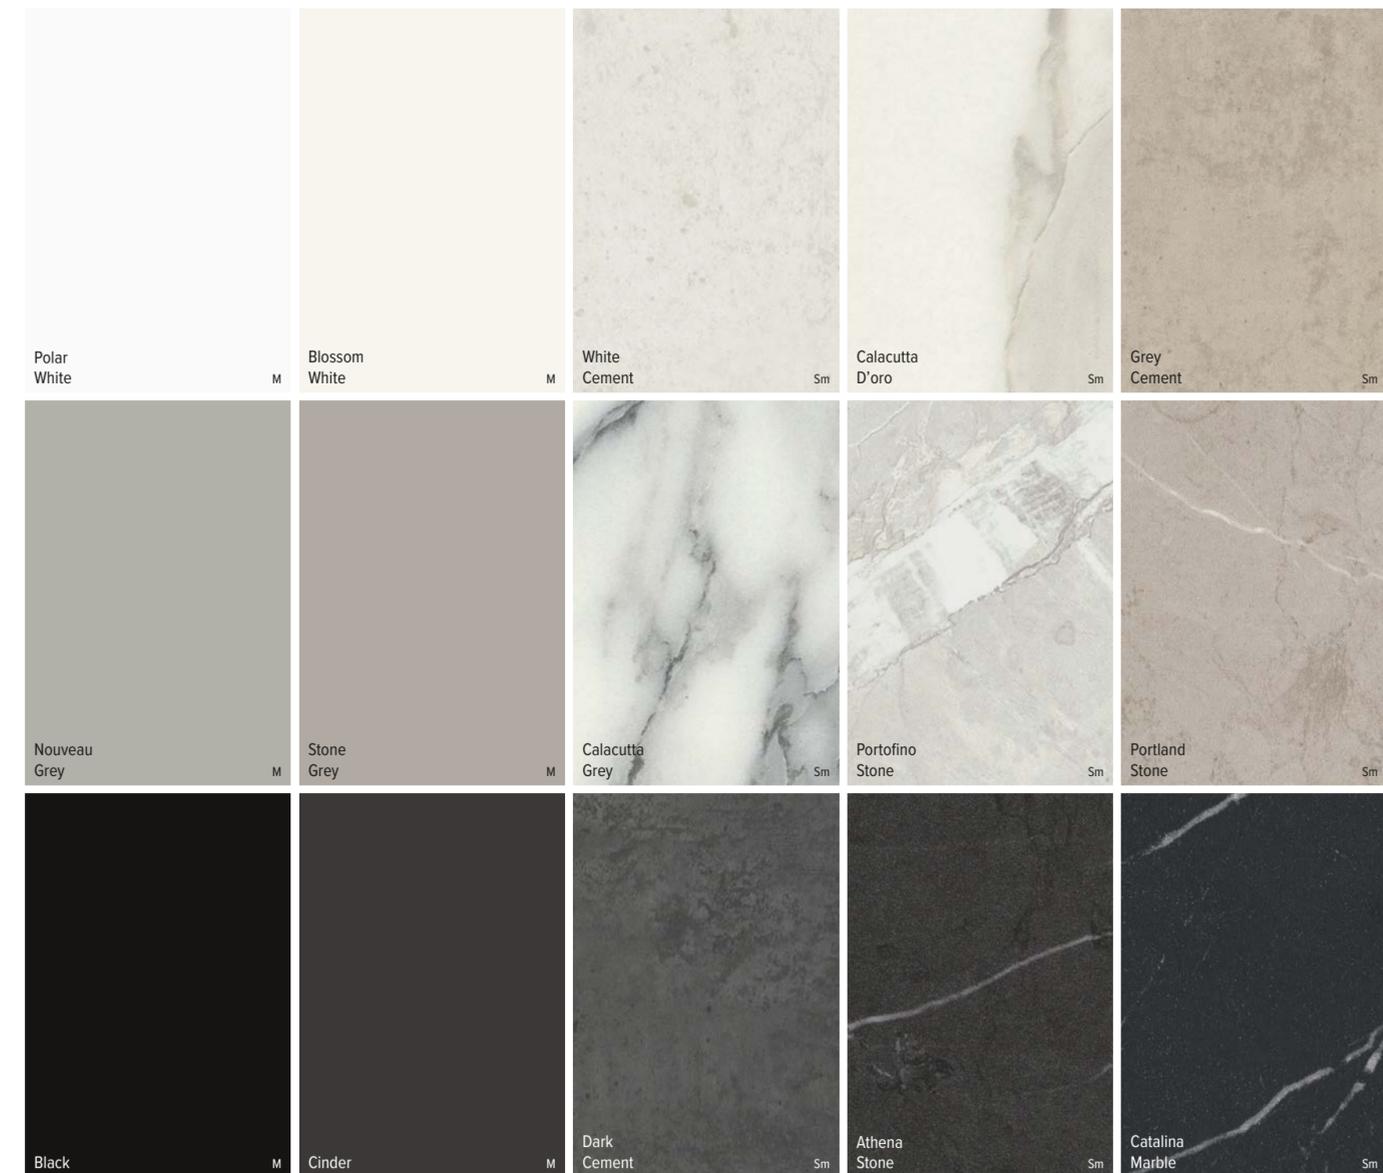

Compact laminate is totally impervious to water and has a beautiful appearance with outstanding stain and wear resistance. The 5mm Compact laminate inserts are made from a high impact material, which will stay in great shape for many years.

Both **polytec's** Aluminium framed doors and Alfresco range are easy to clean, stain resistant, made-to-order, and Australian Made, with a seven-year limited warranty on residential and commercial applications.

Benchtops & LAMINATE

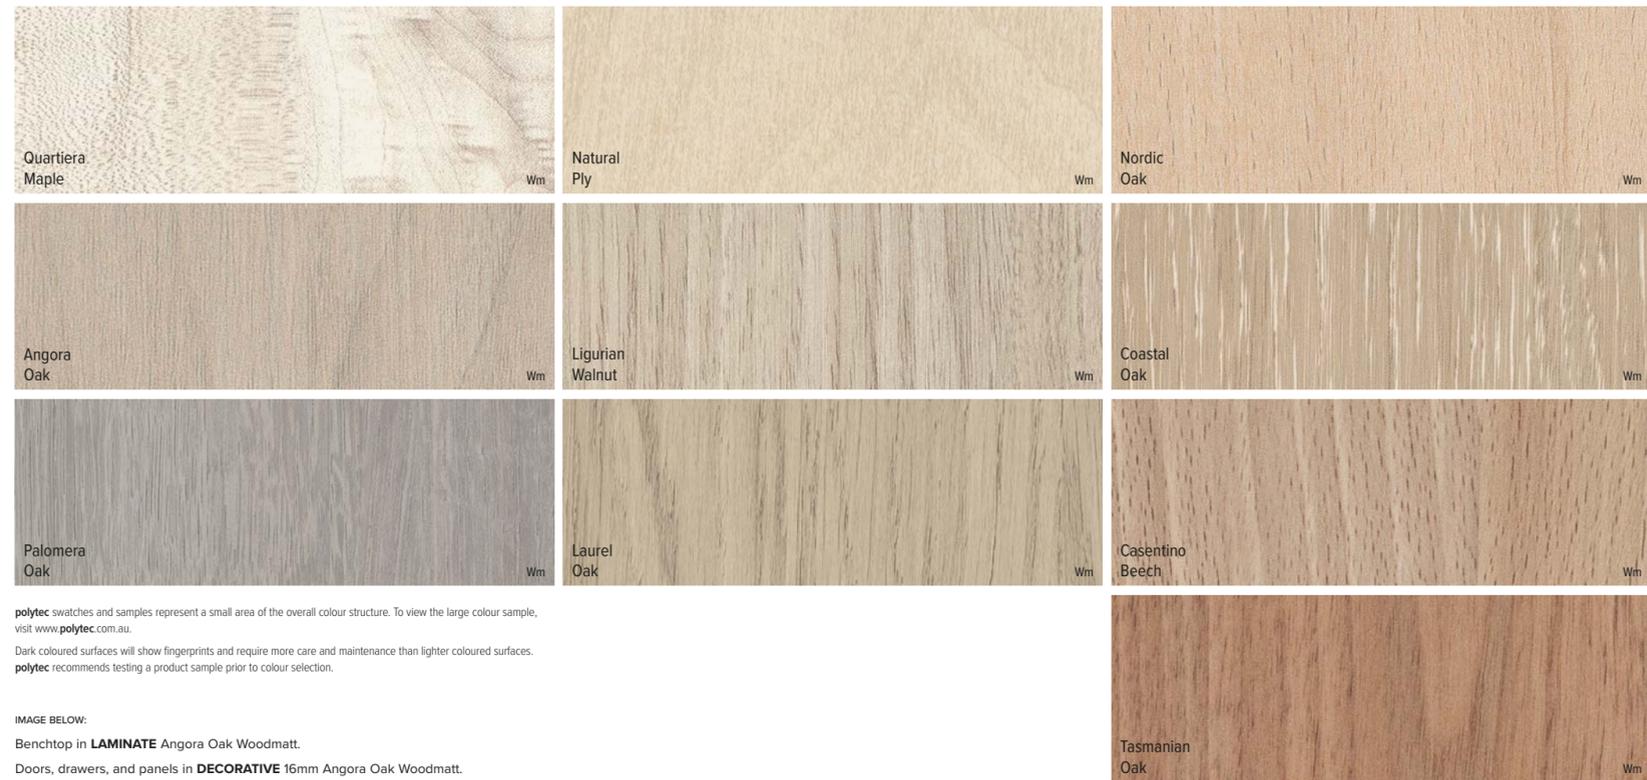

polytec's innovative Benchtops range offers over 150 realistic stone structures, warm woodgrains, and neutral solid colours, remaining unrivalled in the decorative services industry.

polytec's signature finish, Woodmatt, exudes the look and feel of natural timber. The new range of timber prints blend the old familiar timbers with new neutral-coloured tones to evoke the feeling of warmth and comfort.

polytec's Smooth finish provides a soft-to-touch surface with subtle reflectance, delivering easy maintenance and an elevated, luxurious appearance. The finish is made to elevate a base laminate to something far more superior and luxe. Smooth enhances each design, highlighting the importance of texture and feel in modern interiors.

Available in two thicknesses and four different profiles, **polytec** Benchtops provide versatile solutions, enabling maximum creative freedom. Designed for the Australian lifestyle, this range holds enduring value and represents our path towards sustainable design.

The complete range of stone and woodgrain designs are represented with precision and depth, showcasing **polytec**'s investment in state-of-the-art manufacturing technologies.

Xenolith

PREMIUM SOLID CORE TOPS

polytec's innovation continues with Xenolith, a premium solid coloured core laminate designed to deliver exceptional durability, refined aesthetics, and versatility across residential and commercial environments.

Now available in 18mm, 15mm, and 5mm thicknesses, **polytec's** Xenolith responds to the growing trend for statement surfaces.

Unlike traditional laminate benchtops, Xenolith features a solid coloured core, allowing exposed ends without visible join lines or edge strips. Profiles can be seamlessly machined directly into the surface, enhancing both form and function.

- **18mm Xenolith**
New 18mm thickness offering heightened design presence for benchtops, vanities, café counters and other horizontal surfaces, creating a more luxurious and substantial feel in any setting. Ideal for both residential and commercial projects, the thicker format elevates design impact while reinforcing Xenolith's reputation for premium performance.
- **15mm Xenolith**
15mm Xenolith is the innovative core to this premium range from which the additional thicknesses have been developed. Designed to handle high-traffic environments, it's ideal for benchtops, vanities, wet room partitioning, café counters, alfresco areas, and more.
- **5mm Xenolith**
New 5mm Xenolith delivering a sleek, seamless splashback solution, complementing the 15mm range. Its slim profile delivers a modern, clean look without compromising on strength or performance.

Perfect for high-traffic, high-demand spaces, **polytec's** Xenolith offers a silica-free, hygienic, and easy-to-clean solution – making it especially suited for hospitality, retail, healthcare, and education environments. With superior resistance to stains, wear and impact, Xenolith ensures long-term use with minimal maintenance.

Unlock unprecedented design freedom with Xenolith's diverse colour range. From the nuanced realism of marble to the raw aesthetic of industrial cement, the timeless appeal of solid stone patterns, and the essential purity of solid white, Xenolith provides architects and designers with a spectrum of sophisticated surfaces.

All colours are offered in a Smooth antibacterial finish and are water-resistant – delivering sophistication and durability in one high-performance surface, with made-to-order tops up to 4400 x 1830mm.

Wardrobe

RANGE

polytec's Wardrobe range is designed to bring both style and functionality to your space, offering a variety of options, transforming your everyday storage into a statement of luxury.

Whether you need to organise clothing, shoes, jewellery, or accessories, **polytec** provides affordable solutions to suit all budgets, while utilising luxurious colours and finishes to elevate your wardrobe.

Choose from a selection of options:

- Durable decorative board
- Aluminium framed doors with sleek glass inserts
- 25mm Surano doors for a shaker-style design
- New stylish Horizon drawer fronts

To personalise your wardrobe, **polytec** offers an extensive selection of colours and finishes including Woodmatt, Matt, Ravine, Texture, and Ashgrain, ensuring a modern, sophisticated touch to any interior.

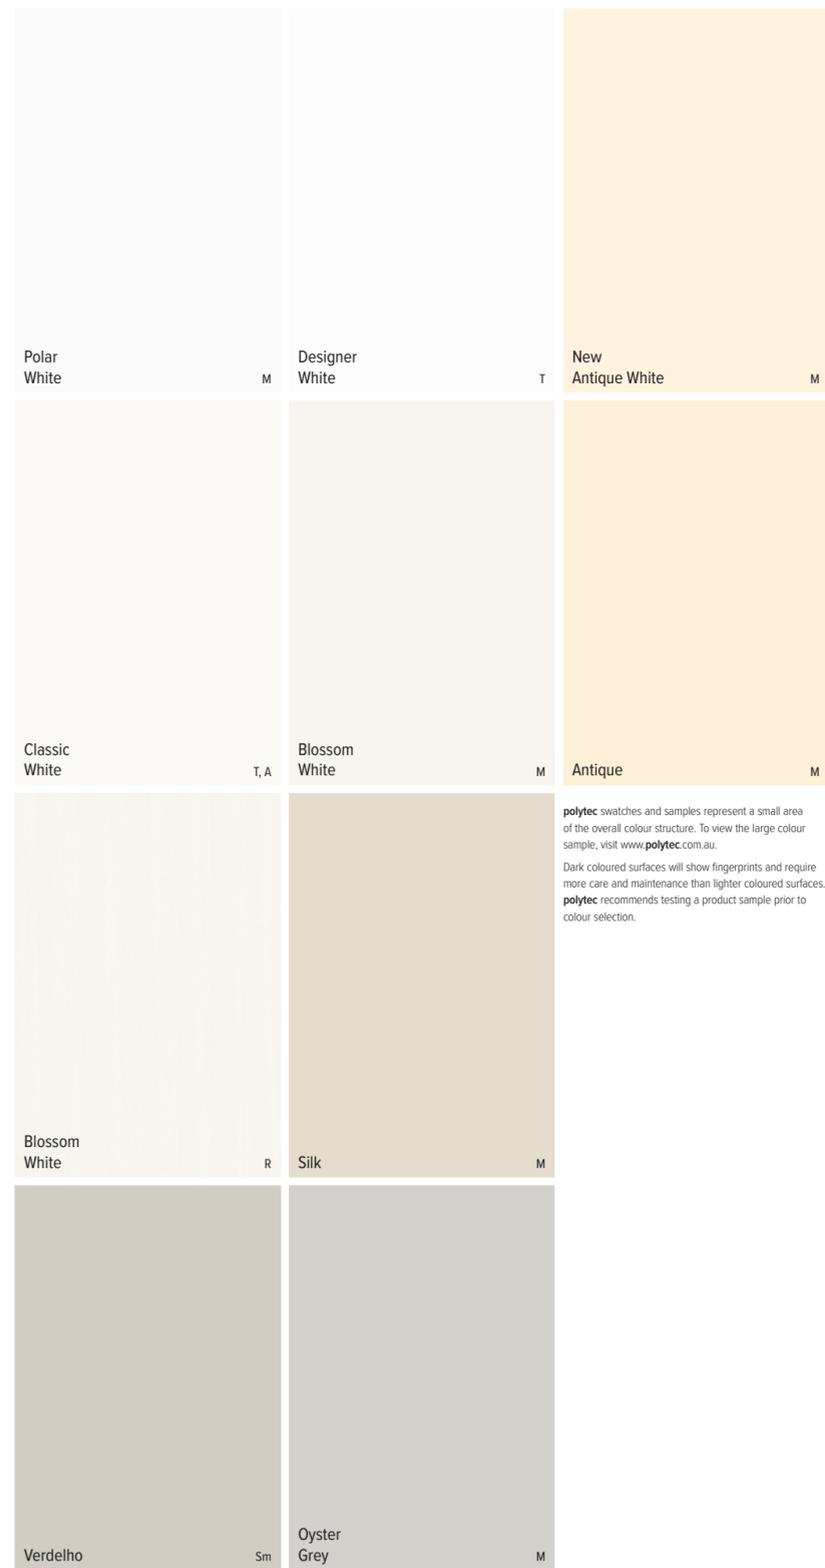

25mm Surano wardrobe & barn doors

polytec's 25mm Surano door range offers a shaker-style design made from 25mm E0 MR MDF with 130mm wide stiles and rails with a 9mm MDF infill panel. Available in a range of woodgrain and solid colours, adding a modern touch to any space. Enhance the aesthetic with glass inserts, adding textural depth and a refined touch.

Horizon drawer fronts

polytec's new Horizon drawer fronts feature a sleek three-piece construction with a glass insert and frameless top edge, enhancing any interior with a sense of sophistication. Horizon drawer fronts are available in a range of colours, designed to complement your joinery, creating a cohesive design and providing a sense of openness.

At **polytec**, we strive to provide beautifully crafted decorative surfaces of unmatched quality. With an outstanding array of colours, styles, and finishes, **polytec's** Wardrobe range provides the perfect blend of practicality and elegance for all your storage requirements.

Commercial

RANGE

polytec's Commercial range comes in a variety of colours, thicknesses and sheet sizes specifically designed for commercial application. Our range of colours are available in Decorative board, Laminate and Compact laminate making it easy for you to choose the design features you are looking for. Choosing **polytec's** Commercial colours and materials for today's working environments will give your design concept a fresh and unique look.

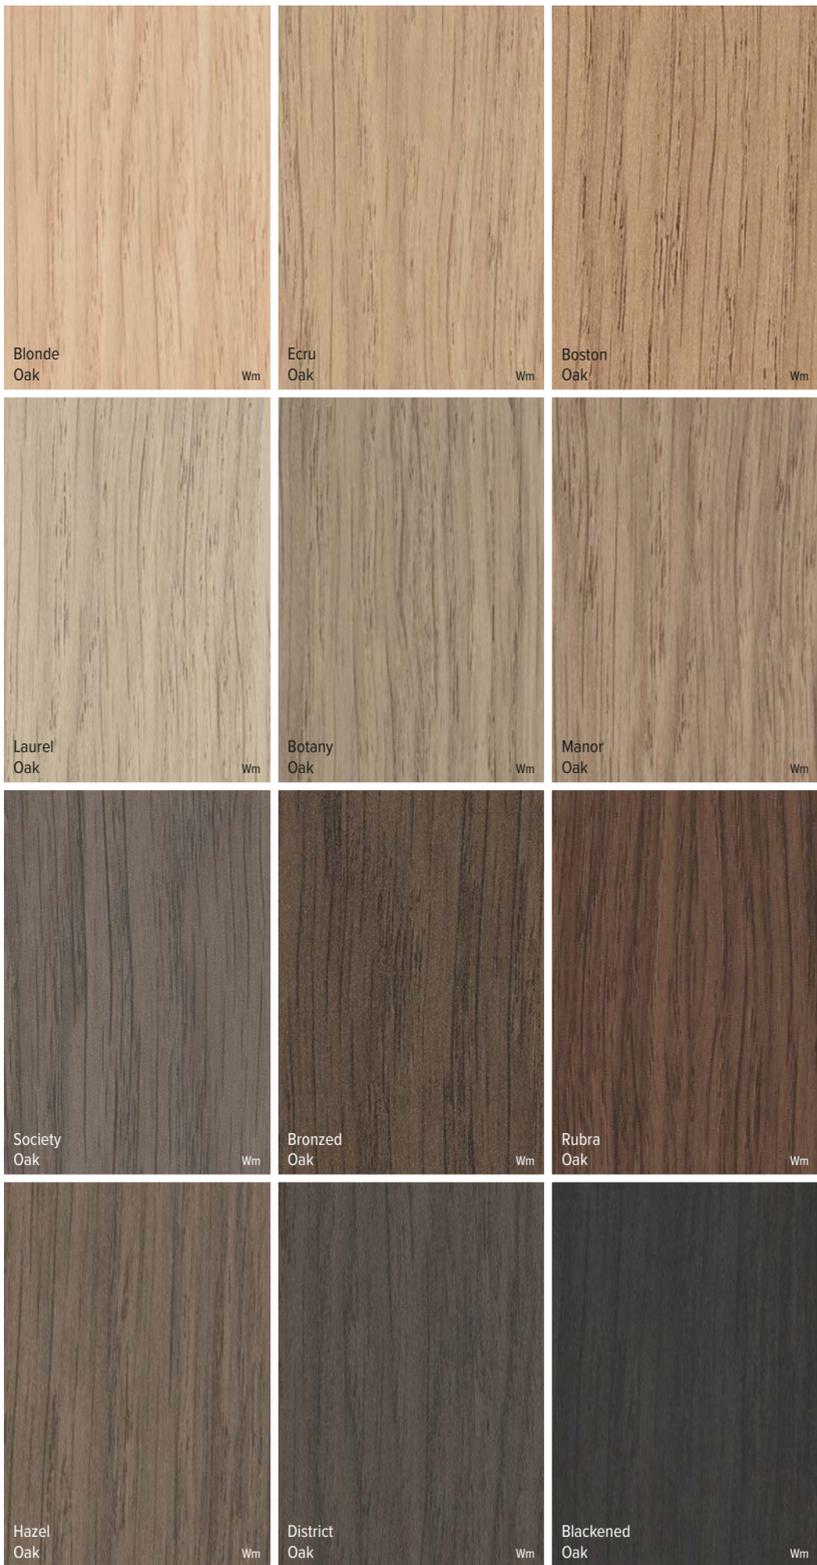

The **polytec** Commercial range will inspire unlimited design possibilities for any commercial environment.

In addition to the Commercial range, is the introduction of the Woodmatt finish in versatile, larger decorative boards, all with matching laminate, and a selection of Compact laminates. The Woodmatt finish from **polytec** offers a subtle woodgrain embossing with an overall matt surface, combining the best of natural timber with technology advancements to match perceptions of authentic timber veneer – in look, feel and warmth.

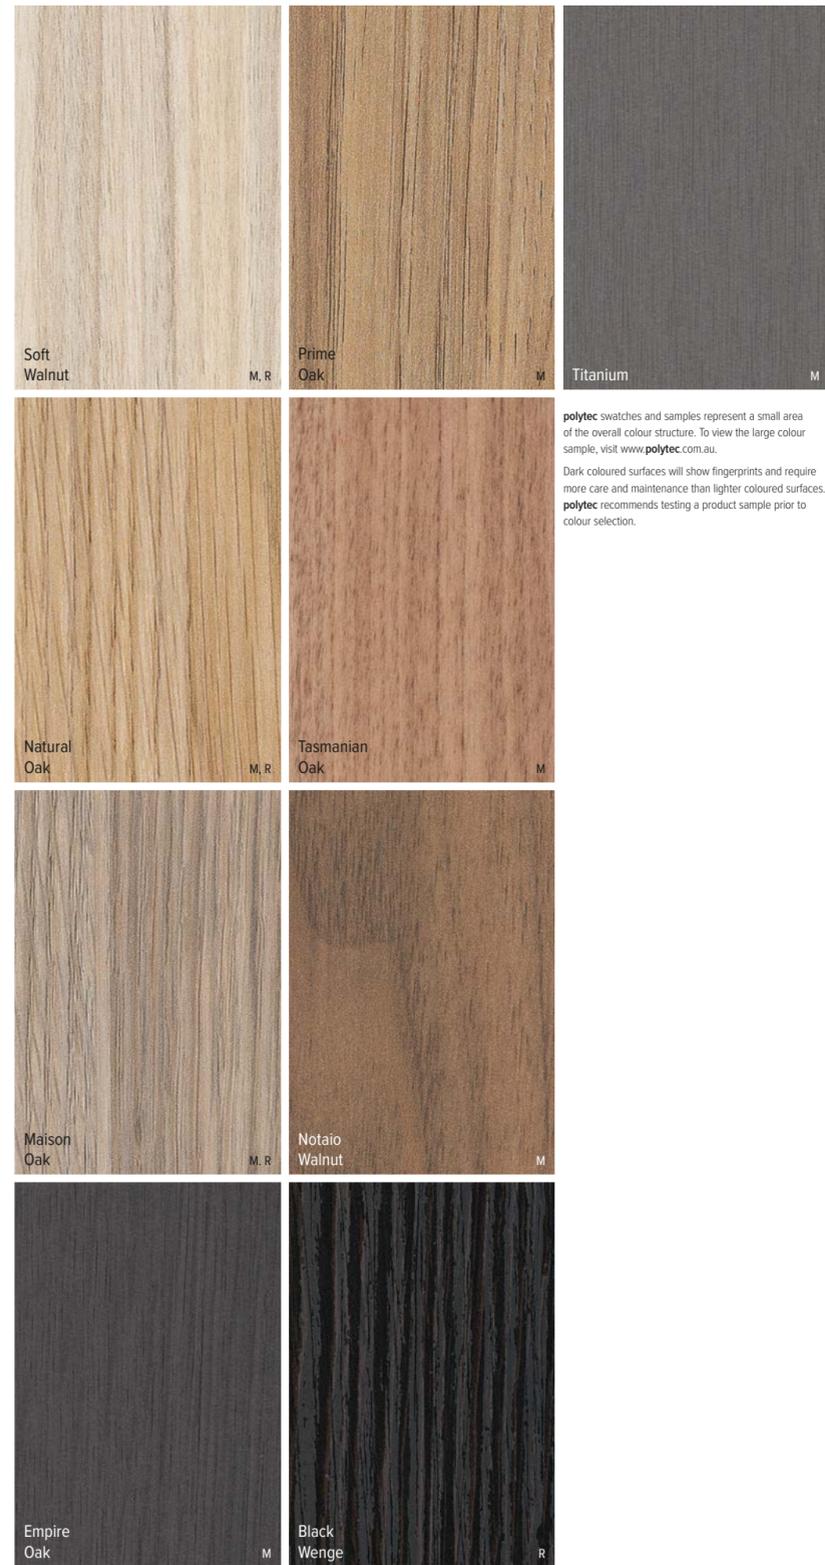

Inherent with our typical durable properties and the **polytec** value price point, the unique Woodmatt colours and finish, help you to create a natural looking and feeling environment, now available in 13mm Compact laminate for the most hard working environments.

Compact

LAMINATE & PARTITIONING SYSTEMS

As the consummate, long-lasting, low-maintenance, decorative panel, **polytec's** Compact laminate is a go-to product for the most demanding professional interior joinery environments.

Being manufactured from quality materials, embeds **polytec's** Compact laminate with excellent physical and technical characteristics. It's totally impervious to water and has outstanding impact, stain and wear resistance, along with excellent hygienic properties.

Characterised by a distinctive black core, Compact laminate holds extra appeal on the aesthetic front and as a structurally sound material.

The introduction of Smooth and Woodmatt finishes into **polytec's** Compact laminate range avails exciting new design possibilities for commercial projects. **polytec's** Smooth finish is a sleek, flat surface with minimal reflectance available in a range of stone patterns. **polytec's** ever-popular Woodmatt finish allows a feel of realistic woodgrains, plus also choose from a range of solid colours. With a diverse range of finishes available gives you greater design flexibility.

polytec's Partitioning Systems provide a durable and robust toilet and shower partition system. Manufactured using Compact laminate and offered in over 40 colours, this custom-made flat packed system includes bench seating, modesty panels, dividers and drop front benchtops alongside the eight combinations of our four system styles to transform your wet area.

Steccawood

PREFINISHED DECORATIVE BATTENS

polytec's Steccawood battens offer a refined, prefinished solution for adding warmth, texture, and architectural interest to interior spaces. Designed for walls, ceilings, and curved surfaces, Steccawood can be installed in both vertical and horizontal layouts, ideal for creating directional flow, spatial division, or standout feature elements.

Steccawood has been engineered for seamless integration with the wider **polytec** product range. This allows you to use a single colour across multiple decorative surfaces, creating a cohesive and unified design.

Our Woodmatt and Ravine finishes feature subtle embossed woodgrains that provide the look and feel of natural timber, adding warmth and texture to any space. For a touch of luxury, the Smooth range offers a realistic alternative to fluted honed stone, with a stunning assortment of stone prints and marble designs. A Raw option is also available for custom paint applications.

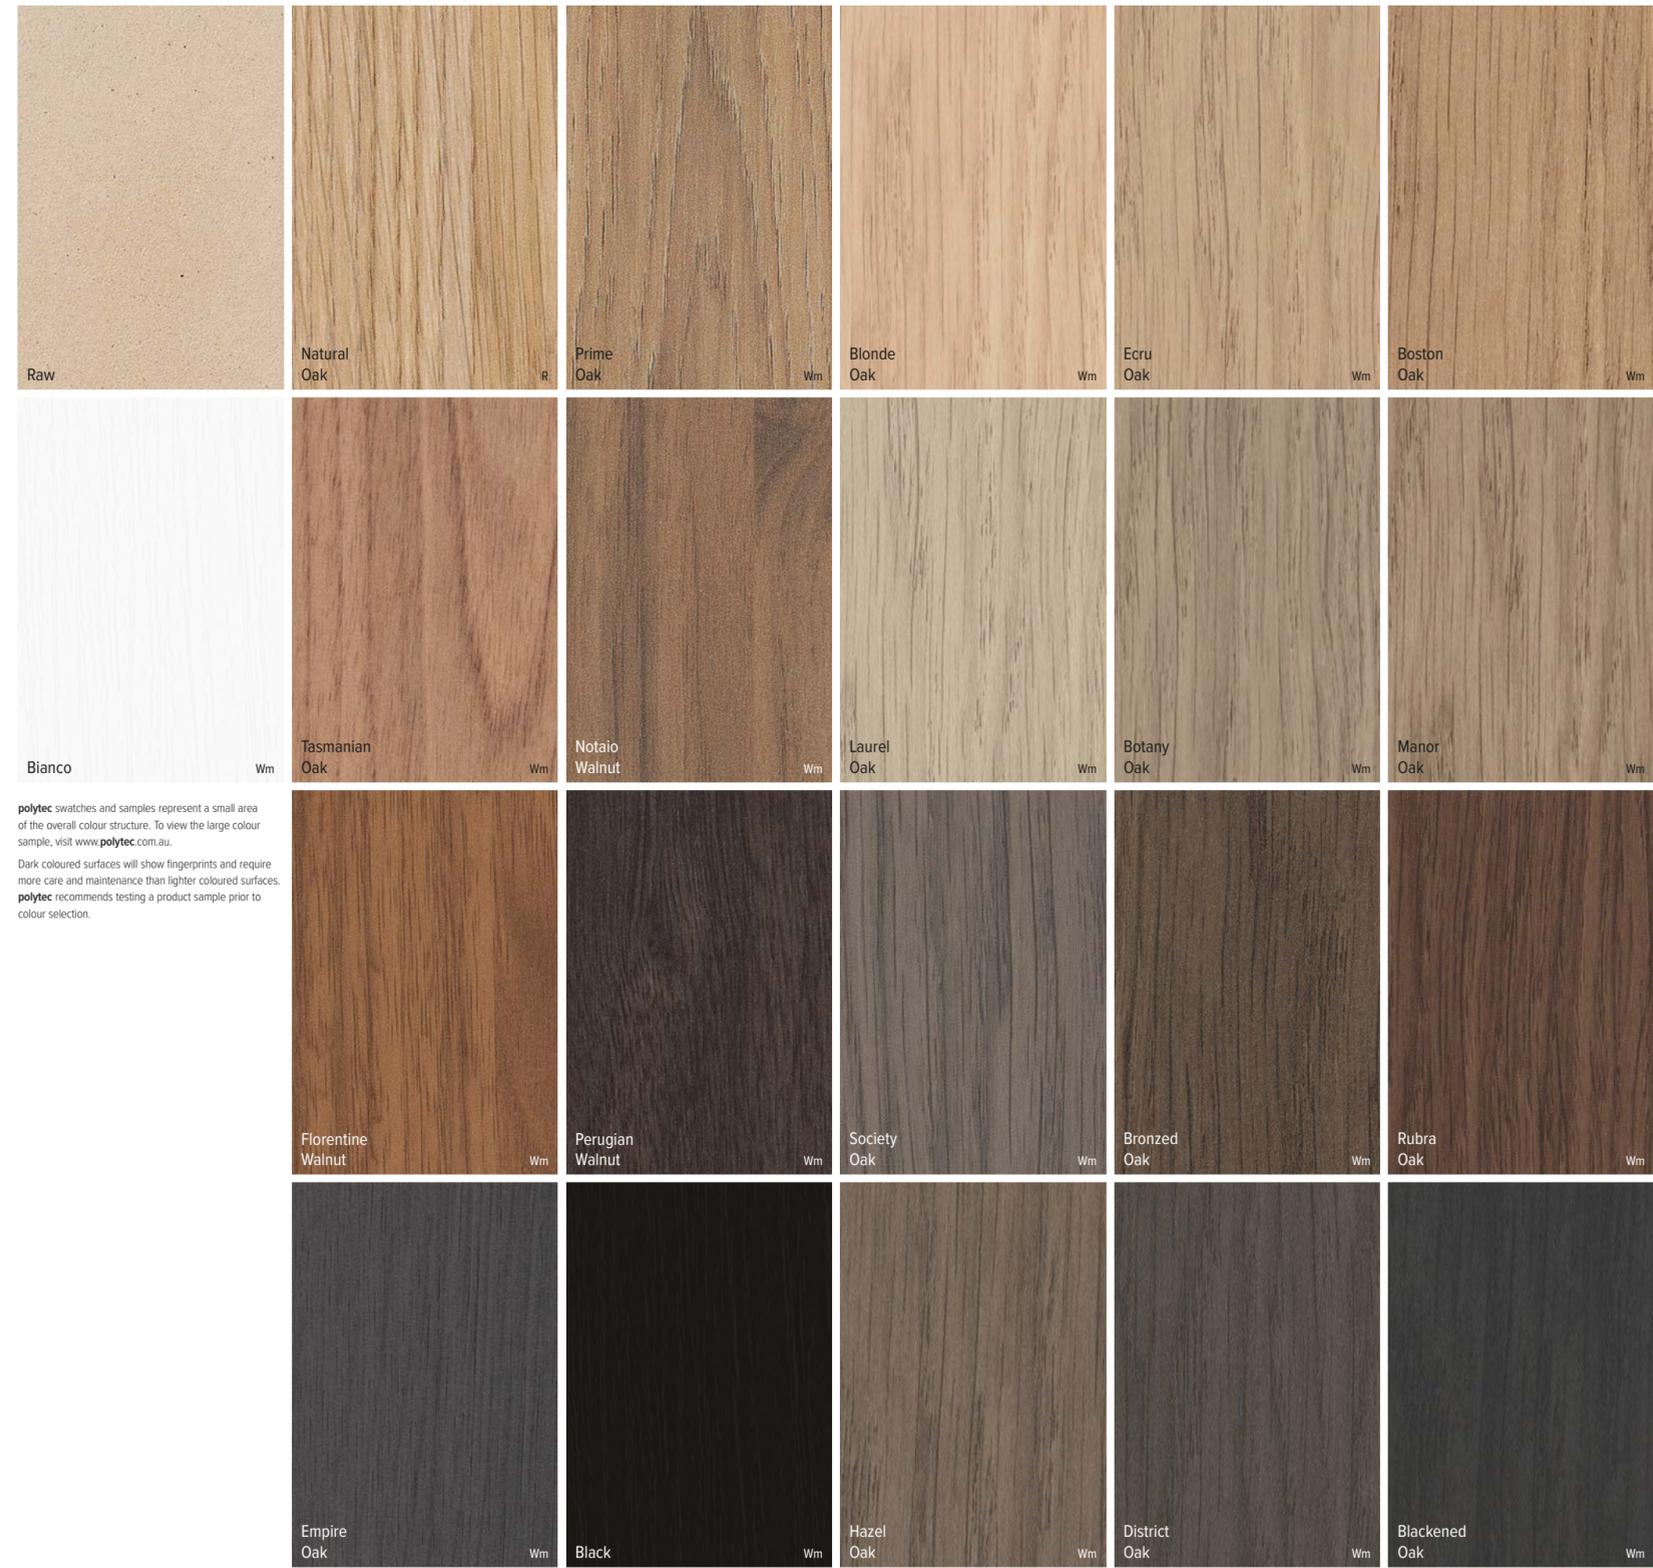

Manufactured from E-Zero MDF or LDF and wrapped in decorative overlay, Steccawood battens are lightweight, easy to install, and available in a wide range of colours and profiles. They're suitable for feature walls, screening, ceiling linings, curved bulkheads, alcoves, and joinery detailing.

Steccawood is a practical and visually rich choice, offering flexibility without compromising on style or performance. Combining form and function, Steccawood allows you to create architectural patterns, maintain privacy, improve acoustics, control lighting, and create feature pieces within both residential and commercial applications.

Easycraft Contours

TIMBER LINING BOARDS

polytec's is excited to introduce the Contours range by Easycraft. Contours timber lining boards add natural warmth, texture, and depth to any space, offering a refined and versatile design solution for walls, ceilings, and joinery.

Crafted from solid timber in various textured designs, these lining boards create calming atmospheres or vibrant patterns. Ideal for internal applications, they can be used for flat or curved surfaces.

Designed for easy installation, Easycraft Contours feature a concealed tongue and groove joint that ensures a clean seamless finish.

Contours brings architectural detail to life in both residential and commercial projects.

Dedicated to sourcing timber from environmentally responsible and sustainable forests, Easycraft Contours range hold Chain of Custody under internationally recognised and accredited organisations.

proudly supporting McGrath Foundation

polytec is proudly partnered with the McGrath Foundation, whose purpose is to ensure that no one goes through cancer without the care of a McGrath Cancer Care Nurse.

Through this partnership, **polytec** aims to raise funds to help place McGrath Cancer Care Nurses in communities right across Australia. This vital effort is made possible by the generosity of our standard and premium business sponsors, and we extend our special thanks to our superior supporters:

- DLS Kitchens
- eKitchens
- Exclusive Cabinetry
- Jason Gannon Cabinetmakers
- Kitchen Craftsmen
- Willoughby and Fahy

The support of all of our sponsors ensures more people have access to the care they need – no matter where they live or what type of cancer they're facing.

McGrath Cancer Care Nurses provide physical, psychological, and emotional support to people with any type of cancer throughout their treatment. With close to 1 in 2 people in Australia likely to be diagnosed with cancer, the more support the better to ensure no one misses out on care.

thank you.

polytec extends our heartfelt gratitude to our valued customers, designers, and industry partners. Your trust, loyalty, and continued support over the years have been instrumental in shaping who we are today.

We are especially grateful to the businesses who generously opened their doors and shared their projects, which provided the beautiful imagery that brings this Portfolio to life. Your collaboration allows us to showcase **polytec** not only as a product, but as an integral part of the spaces where people live and work.

We deeply value the cabinetmakers who have trusted **polytec** for many years. Thank you for choosing us, we appreciate your continued support. To the architects and designers who continue to specify **polytec** in their projects, thank you for choosing to bring our materials into your vision and creativity.

As we look ahead, we remain committed to being a trusted partner and a first choice for the building and design community across Australia. We look forward to many more years of collaboration, inspiration, and shared success.
