MULTI-PIECE DOOR

SUMMIT DESIGN

polytec.com.au

21mm thick five-piece door construction with a 16mm insert panel and a 20mm wide frame

Soft gradual chamfer profile

Softer by Design

The Summit design brings a contemporary softness to the expanding Multi-Piece Door Range. Featuring a 21mm thick, five-piece construction with a precision mitred frame and 16mm insert panel, Summit is distinguished by its soft gradual chamfer profile, creating a gentle transition between the frame and centre panel.

Designed and manufactured in Australia, Summit combines the craftsmanship of traditional joinery with the precision of modern manufacturing. The 16mm MDF MR E0 centre panel is compatible with **polytec**'s extensive decorative range, providing exceptional flexibility across a broad selection of colours, finishes and woodgrains.

Sharing the same proven construction and manufacturing platform as the Vista Door Design, Summit delivers identical fabrication benefits while offering a softer, contemporary aesthetic. Made to order with flexible sizing and standard hinge compatibility, Summit integrates seamlessly into new and existing cabinetry and complements the Vista and Surano Door Designs within **polytec**'s Multi-Piece Door Range.

Suitable for residential and commercial joinery applications, Summit offers designers and cabinet makers the freedom to create distinctive cabinetry without compromising on performance or practicality.

Features & Benefits

- Part of the **polytec** Multi-Piece Door Range
- 21mm thick five-piece door construction with a 16mm insert panel
- 16mm MDF MR E0 centre panel compatible with the **polytec** decorative range
- Soft gradual chamfer internal profile
- Suitable for standard hinge applications
- Minimum size: 120mm H x 147mm W
- Maximum size: 2900mm H x 1200mm W
- Made to order with flexible sizing options
- 144 possible colour combinations

Environment & Sustainability

polytec is a 100% Australian family-owned brand with over 30 years of manufacturing experience. Sustainability is central to our operations, with a focus on reducing our carbon footprint, minimising waste, improving energy efficiency, and using responsibly sourced materials. For more, visit our website, polytec.com.au.

Important

The Summit Design is only available with full rails and cannot be grain matched. The selected insert colour continues through to the reverse side of the door for a consistent finish. Batten Oak inserts come with a Boston Oak rear backing.

The colours and details shown in this brochure are reproduced to the highest standards in printing. However, they should only be used as an indication of actual product colour. To order your free colour sample, visit polytec.com.au.

polytec swatches and samples represent a small area of the overall colour structure. To view a large colour sample or a full sheet design, visit polytec.com.au.

The use of current samples provides the best representation of the colour and finish you can expect to receive. Samples are provided for colour and finish selection, and **polytec** recommends testing a sample for fingerprint resistance and ease of cleaning.

polytec provides samples across various product families. When selecting products from different ranges, always order samples and compare them together before making your final selection.

polytec does not guarantee exact colour matches across product ranges due to colour variation within each product group.

Darker colours will show superficial wear and tear more readily than lighter coloured surfaces and require more care and maintenance.
