

Protective Film Removal: Manufacturer Recommendation

As per the information provided by **polytec**, to adhere to manufacturer recommendations, all products supplied with protective film should have the film removed within three months of product installation.

Failure to follow this recommendation may lead to adverse effects on product surfaces and may affect the ongoing manufacturer warranty.

This information is also available in the Care & Maintenance section of the relevant **polytec** product brochures:

- **polytec** Decorative 18mm Doors & Panels Brochure
- **polytec** Decorative 16mm Doors & Panels Brochure
- **polytec** Bevel Edge Doors Brochure
- **polytec** Thermolaminated Doors & Panels Brochure
- **polytec** Ultraglaze & Ultramatt Doors & Panels Brochure

Should you require any further information, please refer to the appropriate product brochure or contact **polytec** directly for product-specific guidance.
