Environmentally Aligned

On a daily basis, **polytec** strives to foster an eco-friendly and sustainable environment that minimises our environmental footprint. Making products that are long-lasting and low-maintenance is central to that. **polytec** products are manufactured from managed and renewable plantation pine and on request can be purchased as Responsible Wood chain of custody certified. All **polytec** board products are manufactured from E0 or E1 CUSTOMwood MDF and CUSTOMpine particleboard. Waste is managed responsibly through recycling programs encompassing aluminium and metals and used oils, while timber waste is recycled back into energy and packaging. We subscribe to local government environmental initiatives and voluntary audits as well as our own internal Energy and Carbon Management Policy (ECM), which aligns with the Australian Government's Energy Efficiency Opportunities (EEO) program.

Product Range

Australian projects require materials that are practical, robust and a pleasure to be around. **polytec** has all bases covered with an array of solutions in all decorative surface product sectors including: High pressure laminate, low pressure melamine, made-to-order thermolaminated doors, aluminum framed doors, Ultraglaze acrylic range and Steccawood decorative battens. **polytec**'s diversity of colours, finishes and prints form ranges that are designed to work together, paving the way for highly original and bespoke designs.
