Manor Oak™

Where Outdoor Function
Meets Interior Elegance.

Built for Performance. Designed for Outdoor Living.

Key Features | Alfresco Doors

Durable 2mm/55mm Aluminium Frame Construction	Designed to complement interior polytec cabinetry
Compact Laminate inserts with exceptional weather resistance	Minimum size: 141mm high x 141mm wide
Impervious to water	Maximum size: 2400mm high x 1200mm wide
Outstanding stain, wear and impact resistance	Made to order in Australia
Easy to clean and low maintenance	Backed by 7 year limited warranty

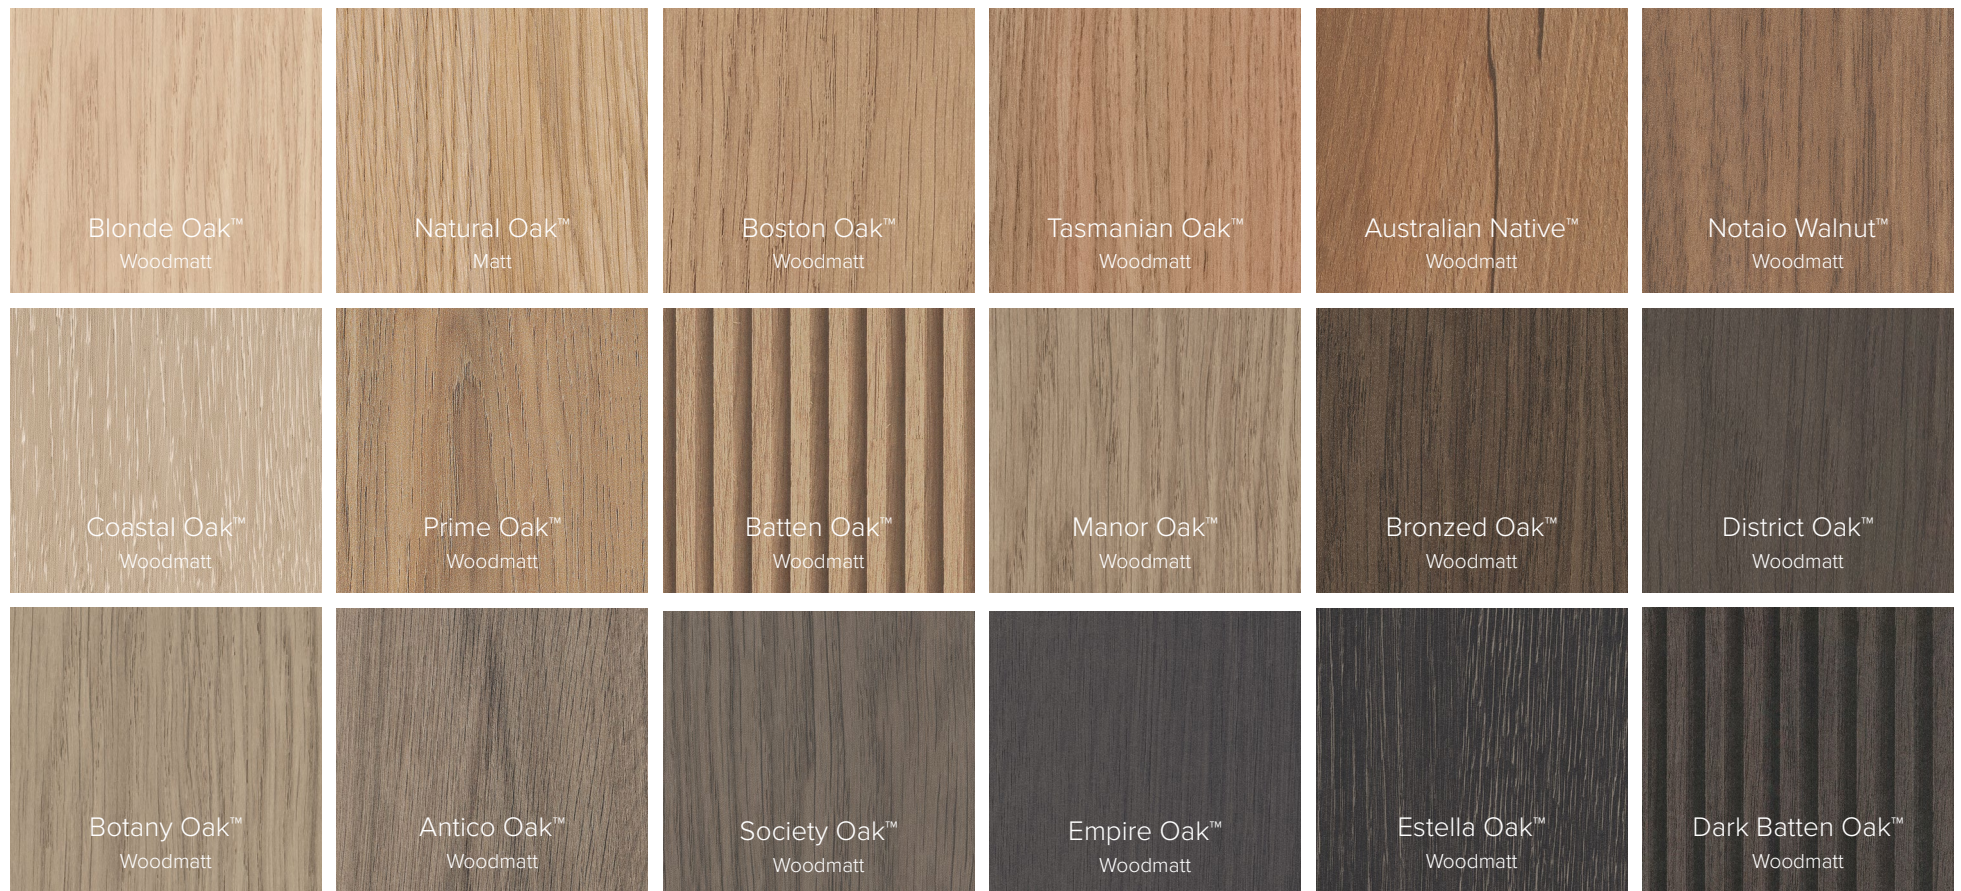

The expanded **polytec** Alfresco Door range introduces five new door styles to the Alfresco Range, bringing the signature sophistication of interior cabinetry to undercover outdoor spaces.

Blending architectural V-groove details, contemporary framed profiles and a premium multi-piece door design with durable aluminium framing and Compact Laminate, the range offers a complete surface solution for seamless indoor to undercover outdoor living.

Designed to deliver the aesthetic, performance and reliability expected from **polytec**, the Alfresco Door Range helps create outdoor spaces that feel as considered, functional and enduring as the interiors they connect to.

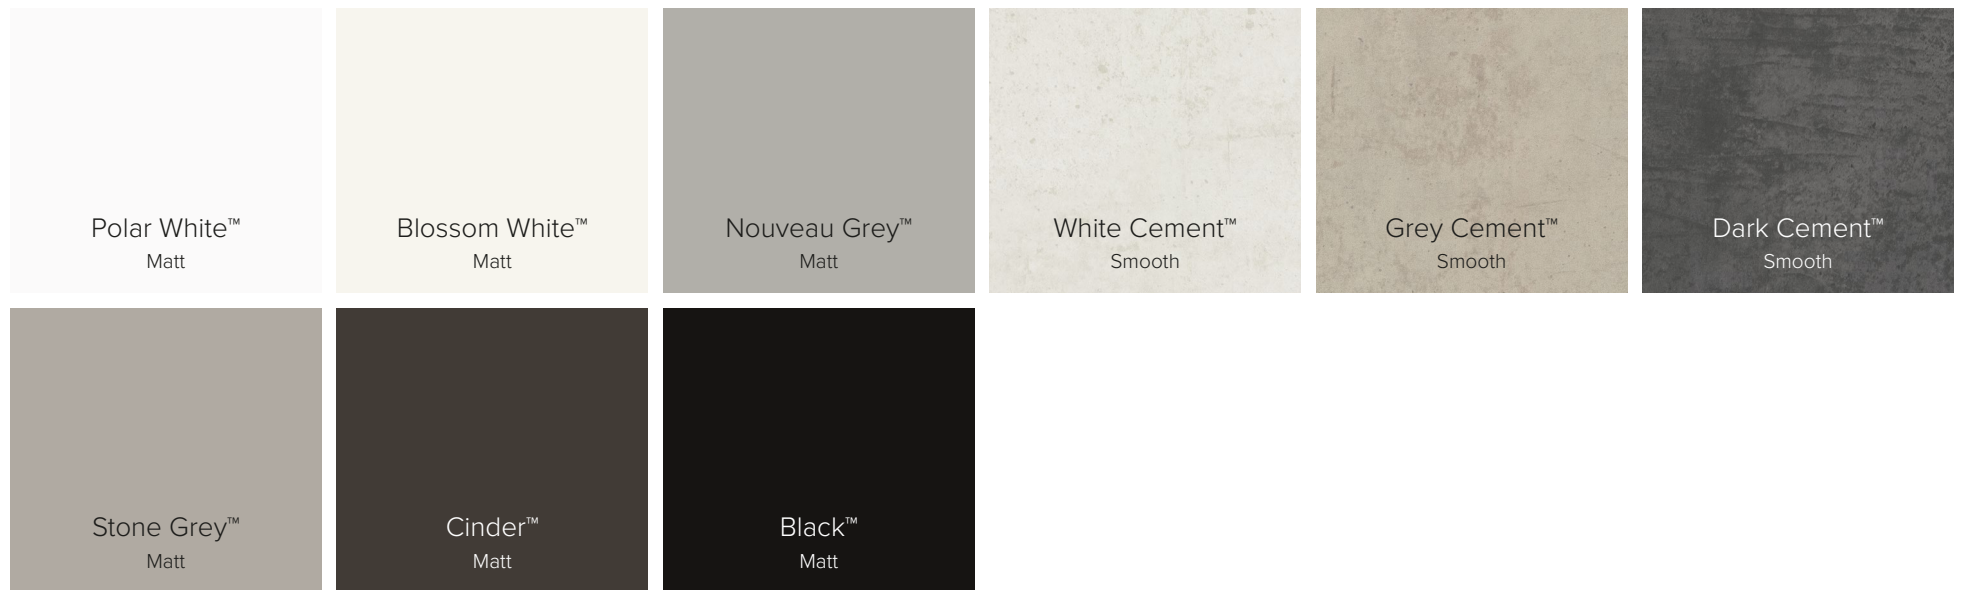

Timberprint Inserts for the Alfresco Door Range

Alfresco Inserts | Timberprint

Solid & Stone Inserts for the Alfresco Door Range

Alfresco Inserts | Solid & Stone

Durable aluminium frame construction.

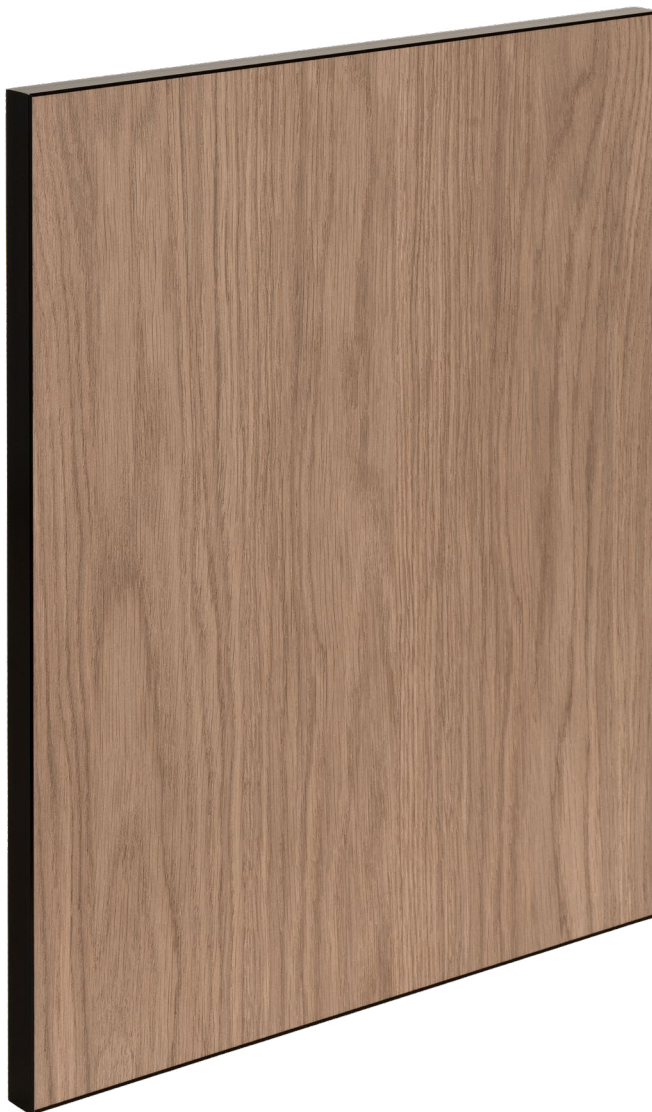

Alfresco Frames | 2mm/55mm Aluminium Frames

Black Anodised

Brushed Grey

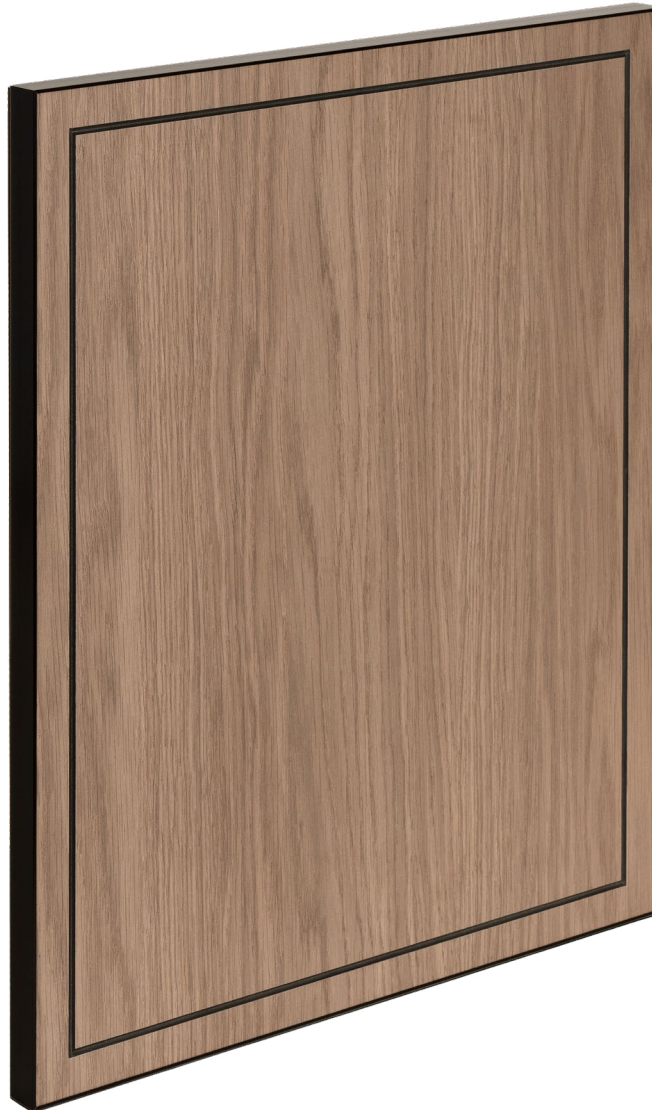

Profile | Alfresco Doors

Flat

Compact Laminate

A clean, flat panel that embodies modern minimalism. The Flat profile features a smooth, unadorned surface, allowing the chosen Compact Laminate finish to take centre stage. Its simplicity makes it a versatile foundation for both bold and neutral outdoor designs.

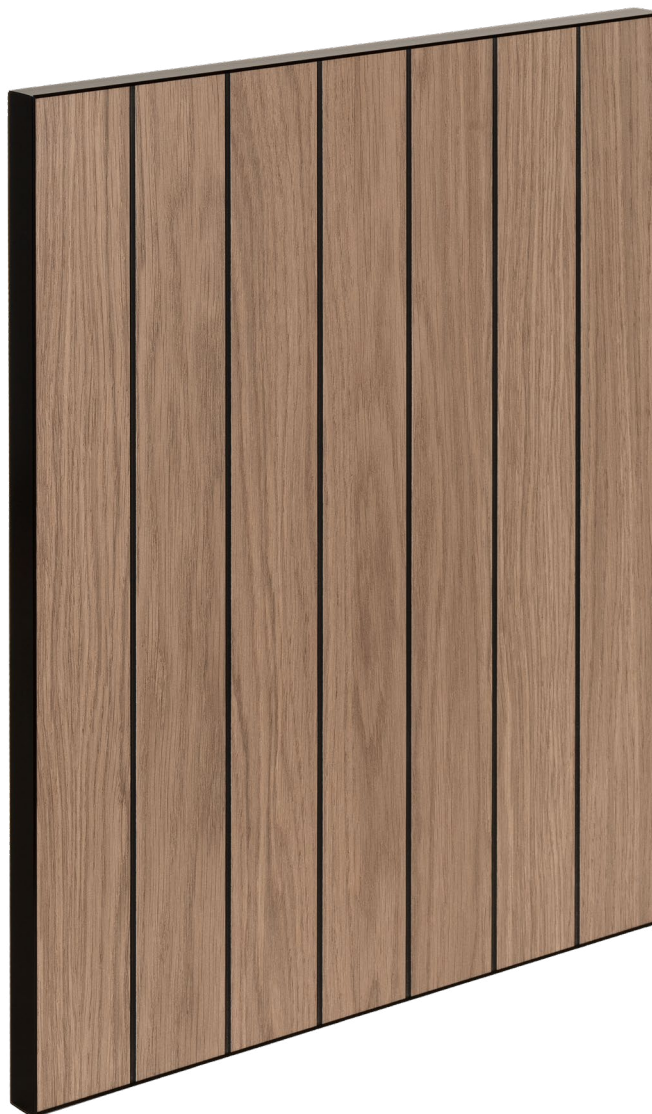

Profile | Alfresco Doors

Frontier

Compact Laminate

A classic framed design with a contemporary edge. Frontier features a 20mm V-groove routed border with square corners, creating a strong, defined frame that adds structure and subtle depth to cabinetry.

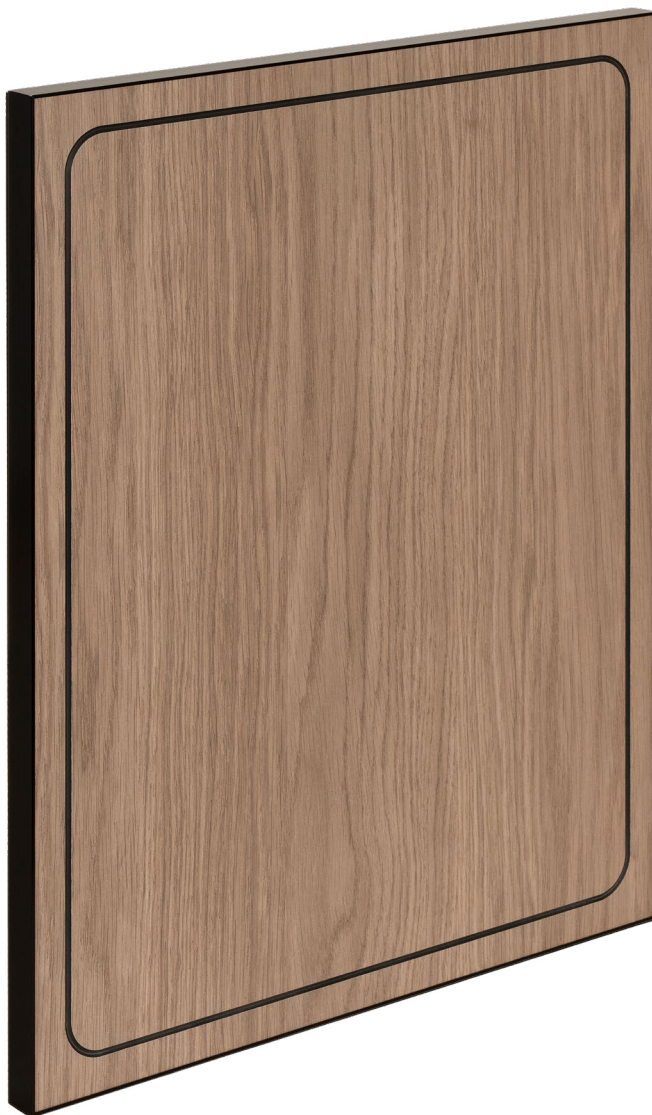

Profile | Alfresco Doors

Harvest

Compact Laminate

A textured, architectural style defined by evenly spaced 60mm V-grooves. Harvest introduces rhythm and vertical flow, delivering a refined, panelled look that enhances modern outdoor spaces with subtle detail.

Profile | Alfresco Doors

Arque

Compact Laminate

A softly detailed framed profile with a contemporary feel.

Arque features a V-groove routed 20mm border paired with smooth 20mm radius corners, offering a refined, rounded aesthetic that softens the overall look while maintaining structure.

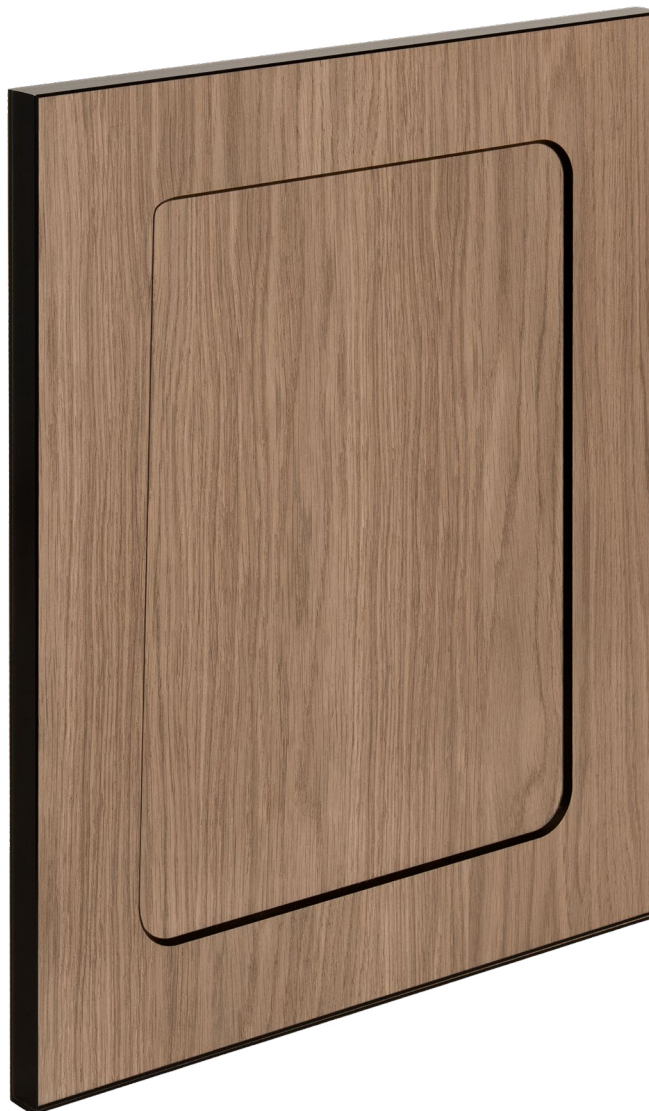

Profile | Alfresco Doors

Reveal

Compact Laminate

A premium door design that introduces depth and layering. Reveal features a front panel with a 60mm V-cut border and a secondary inset panel positioned behind, slightly smaller in both height and width. This creates a framed, shaker-style appearance using a newly engineered aluminium extrusion system.

Profile | Alfresco Doors

Arbor

Compact Laminate

A premium door that reimagines the classic shaker aesthetic with added depth and dimension. A front panel featuring a 60mm V-cut border with 20mm radius corners is complemented by a slightly smaller inset panel positioned behind, creating a layered, framed effect. A newly engineered aluminium extrusion system provides precise detailing and a refined architectural finish.

Designed for Undercover Outdoor Applications.

polytec Alfresco Doors are engineered for a wide range of undercover outdoor applications, including:

- Outdoor undercover kitchens
- BBQ cabinetry
- Bars and entertaining areas
- Outdoor storage cabinets
- Pool houses and pavilions
- Residential and commercial alfresco spaces
