Taj Mahal™ & Grey Taj™
5mm & 15mm Xenolith® Premium Solid Core

polytec.com.au

New Colours.
Same Xenolith Performance.

Introducing Taj Mahal & Grey Taj to Xenolith.

Key Features

Easy to clean, stain resistant, and impervious to water	Available in 15mm and 5mm thicknesses to allow flexible applications
Certified antibacterial Smooth finish	Solid coloured core
Available in large sheet sizes for expansive surface designs	Highly durable and designed for high-traffic environments

Introducing two striking new additions to **polytec**'s 15mm and 5mm Xenolith ranges: Taj Mahal and Grey Taj.

Available in 15mm and 5mm thicknesses, these elegant surfaces capture the natural beauty of marble, with layered veining and warm mineral tones bringing refined depth to both residential and commercial interiors.

Designed with Xenolith's solid coloured core, these surfaces allow for exposed edges and clean detailing without edge banding. Suitable for both vertical and horizontal applications, including benchtops, splashbacks, vanities, café tops, and wet area partitions. Taj Mahal and Grey Taj Smooth combine timeless stone aesthetics with the durability and performance expected from **polytec**.

The beauty of marble, reimagined for Xenolith.

100% Scale

Colour

Taj Mahal

Smooth

Taj Mahal is a warm, light stone-inspired surface featuring a soft ivory base layered with delicate golden and pale taupe veining. Subtle mineral movement runs diagonally through the design, creating gentle depth and natural variation that mimics the elegance of honed marble or quartzite.

The overall palette is refined and understated, blending creamy whites with warm ochre tones to produce a surface that feels both timeless and contemporary.

Colour

Grey Taj

Smooth

Grey Taj features a rich mid-grey stone base layered with soft mineral movement and subtle veining in warm ochre and taupe tones. The natural patterning creates depth and texture, echoing the character of honed marble while maintaining a refined, contemporary feel.

The balanced blend of cool grey and warm earthy undertones makes Grey Taj highly versatile, pairing effortlessly with timber cabinetry, brushed metals and neutral palettes.
